

## BIG REDUCTIONS IN FREIGHT RATES ARE MADE BY COMMISSION

All Trans-Continental Lines Affected By the Decisions.

Hill Roads Are Found to Have Had Excessive Profits.

Spokane Case Among Those Decided By Federal Traffic Board.

Washington, June 29.—Decisions were handed down today by the interstate commerce commission of country-wide importance. They affect freight rates—both class and commodity—on all transcontinental lines operating between the Atlantic and Pacific oceans.

The decisions are in what are popularly known as the Pacific coast cases, heard last autumn by the commission on its six-weeks' trip to the Pacific coast and intermountain territory.

In every instance reductions in the existing rates complained of were made, and in some instances they amounted to nearly 50 per cent.

The commission found, through its inquiry, a remarkable rate situation existing on the Pacific coast, and even a more remarkable one in the intermountain territory. This is notably true of the rates to and from Spokane, Wash., and Reno, Nev.

The Spokane case had been before the commission in one form or another for several years. The shippers of that city complained bitterly of the rates charged by the railroads on freight classes originating from Eastern points of origin, because they were required to pay the Pacific coast terminal rates, plus the local rates back to Spokane from these terminals.

Although the freight was discharged at Spokane by the railroads on the Western trip.

Substantially the same state of facts exists at Reno and other Nevada points, which had to pay rates to San Francisco and return. These local rates, in most instances, amounted to two-fifths or more of the entire rate from Eastern points of origin to Pacific coast terminals.

No Complaints in East.

No complaint was made in the cases of the rates of the Eastern lines between Atlantic points and Mississippi.

(Continued on page 4, second column.)

## FIND DRY PLATE IN SHARK'S BELLY

Fishermen Capture Fifteen-Ton Fish After Seven Hour Fight.

Seattle, Wash., June 29.—After a seven hour struggle, the combined crews of the thirty horse power gasoline fishing boats Good Partner and Pioneer II captured a man-eating shark thirty-six feet long, weighing about 15 tons, in the straits of San Juan del Fuca, between Port Crescent and Port Angeles. The capture was made Sunday.

In the shark's belly they found pieces of bones and a piece of a camera plate.

## NORTH DAKOTANS HOLD PRIMARIES

Republican Factions Furnish Sole Interest in the Elections.

Bismarck, N. D., June 29.—This is primary election day in North Dakota. Both the Democrats and Republicans are selecting full state and congressional tickets to be voted upon at the fall election. There is little interest in today's results so far as the Democrats are concerned, as there are no contests and the Democrats have little hope of electing any of their ticket, with the exception of Governor Burke.

Because of the death of Senator M. N. Johnson during the term, two United States senators will be chosen this year, and each faction has a candidate for the office.

Four After-Schoolers.

Senator J. McCumber and Edward Engerer are the stalwart candidates for senator, while the insurgent candidates are Thomas Marshall and Congressman A. J. Gronna.

Two congressmen to be nominated by the Republicans from six candidates, two supported by the insurgents, one by the stalwarts and the other three running as independents. Congressman Hanna is a candidate for re-election.

For the state offices C. A. Johnson, stalwart, and S. J. A. Buchanan, insurgent, are candidates for governor. The people have not taken as much interest as usual in the election.

## MANY LIVES SAID TO BE LOST IN KENTUCKY

Sayersville, Ky., June 29.—Six bodies were recovered from the Licking river today following a cloud-burst along its headwaters. It is reported that many other lives have been lost. Twenty-six houses were washed away. The Licking is above flood stage.

## SOCIETY WOMAN HAS WON FAME AS SCULPTOR

MRS. HARRY PAYNE WHITNEY.

New York, June 29.—Mrs. Harry Payne Whitney, the exceptionally clever daughter of the late Cornelius Vanderbilt, who married the eldest son of the late William C. Whitney, has won genuine fame as a sculptor. She has a studio in New York and another on the cliffs in Newport, overlooking the sea.

## MIDDIES AND WOMAN DEAD

Three Are Drowned at Annapolis, But Bodies Are Recovered.

Woman Is Widow of Son of Commandant of Navy Academy.

Washington, June 29.—News of the recovery of the bodies of Midshipman S. M. Mason and G. E. Thomas and Mrs. Joseph Bowyer, who failed to return to the naval academy at Annapolis yesterday after leaving for a sail, was reported today to Acting Secretary of the Navy Winthrop over the telephone from Annapolis.

The bodies were recovered near the place where the sail boat had been anchored. No explanation was advanced as to the manner in which the three met their death, but it is supposed that the party were bathing.

Mrs. Bowyer being dressed in a bathing suit and a long cloak. The bodies were taken aboard the Harford.

Two Poor Swimmers.

It was said at the navy department that Mrs. Bowyer could swim only a few strokes. Mason was a poor swimmer, but Thomas could swim well. It is presumed that the latter met his death.

Mrs. Bowyer's husband was a son of the academy, who died in Washington about two years ago.

## GOLD LURES MAN TO FATAL FALL

Prospector in Alaska Falls Over Cliff 500 Feet High.

Valdez, Alaska, June 29.—While prospecting seven miles from Valdez last evening, Charles A. Osland fell 500 feet to death. With a companion he had been prospecting along the edge of a high cliff.

## GLIDDEN TOURISTS LEAVE DES MOINES.

Des Moines, Iowa, June 29.—Dad Lewis, aboard the Glidden pilot car, left Des Moines at 3:30 this morning on the 13-mile run to Davenport. The first of the contestants got away at 6 o'clock. The run today is expected to be over the finest roads of the entire trip. Every farmhouse along the road is decorated with flags. The noon stop today is at Marengo.

## Postmaster at Bengal.

Washington, June 29.—(Special to The Herald.)—Arthur O. Cummings was today appointed postmaster at Bengal, St. Louis county, Minn., vice G. L. Nickerson, resigned.

## Takes Deer River Job.

Deer River, Minn., June 29.—(Special to The Herald.)—Leander Amesess of Baraga, Mich., has arrived to take the position of Sawyer with the White Cedar Lumber company here.

## PRESENT CAPITOL OF THE UNITED STATES

PRESIDENT TAFT'S SUMMER HOME AT WOODBURY POINT, NEAR BEVERLY, MASS.

## TAFT AND ROOSEVELT WILL MEET THURSDAY AFTERNOON

KILLS GIRL WHO WILL NOT "BE GOOD"

"Frank Thompson" Shoots Companion and Himself in Chicago.

Chicago, June 29.—A man registered as "Frank Thompson," shot and killed an unidentified woman and then killed himself in a rooming house here today. The man left a note in which he declared that he had failed to "make a good girl" of his companion.

## ROBBER WORKS IN ROOM WITH DEAD

Steals \$300 While Parents Go to Buy Shroud for Daughter.

Indianapolis, Ind., June 29.—The Italian quarter was excited today by the search for a clue to the identity of an unusually cold blooded robber, who passed the hour of the dead daughter of Francesco Pastava, a banker, late yesterday and stole \$300 from a strongbox in the same room. Pastava and his wife had left the house for a few minutes to select a shroud for their child.

## Found Dead in Rowboat.

Bay City, Mich., June 29.—Henry Busking, 39 years old, thought to be of Fort Wayne, Ind., was found dead in a drifting rowboat on Saginaw bay near Wrentham beach today, having committed suicide by shooting himself.

## Roosevelt Meets Classmates.

Cambridge, Mass., June 29.—Theodore Roosevelt, Harvard '80, at the annual commencement lunch of the Harvard Alumni association in Memorial hall today, participated with his fellow classmates of '80 in the celebration of the thirtieth anniversary of their graduation.

## Why Is It?

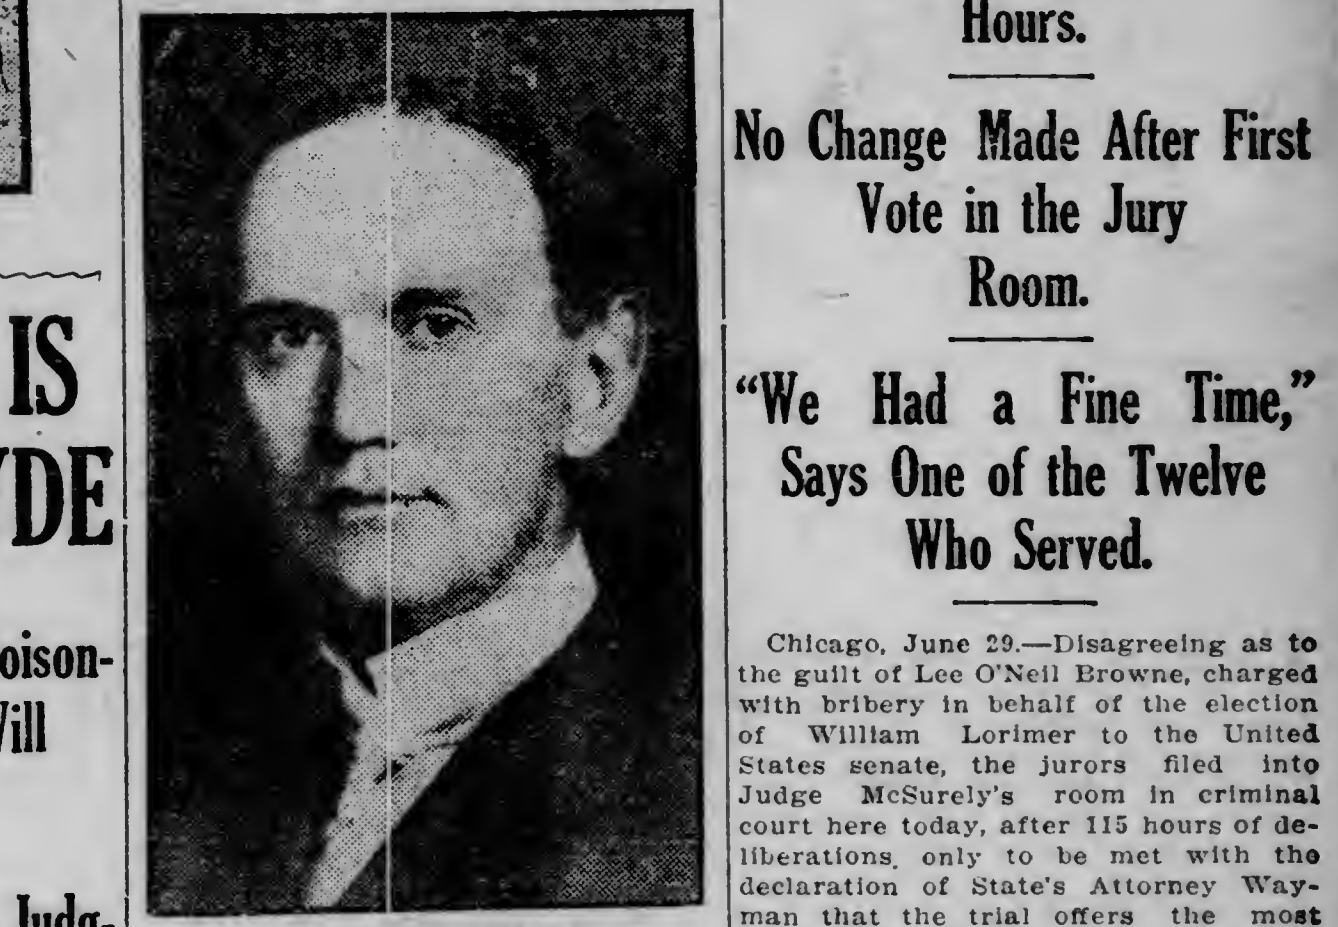

Did you ever notice, when the weather is hottest, people will run—

To be first at a ball game or race or at a street car at a transfer point.

## BROWNE JURY FAILS TO AGREE—"FIXED" DECLARES WAYMAN

SAYS BROWNE JURY WAS WELL "FIXED"

JOHN E. WAYMAN, State's Attorney at Chicago.

Chicago, June 29.—Disagreeing as to the guilt of Lee O'Neil Browne, charged with bribery in behalf of the election of William Lorimer to the United States senate, the jurors filed into Judge McSurely's room in criminal court here today, after 115 hours of deliberation, only to be met with the declaration of State's Attorney Wayman that the trial offers the most flagrant case of jury fixing that he had ever known.

Throughout the entire time of deliberation, the longest by forty-one hours ever consumed by a jury in Chicago, the ballots taken in the juryroom stood the same—eight for conviction and four for acquittal. There were warm arguments at times, but at no time was there even a semblance of any near agreement than that expressed on the first ballot. Twenty-four ballots were taken altogether.

"Fixed," Says Wayman.

That prosecutor Wayman was keenly disappointed at the outcome of the trial was evident both from his manner and his words. He had announced beforehand that in case of a mistrial he would take immediate steps for a rehearing of the case, but when the foreman reported that it seemed probable for the twelve men to agree, Mr. Wayman plainly showed his chagrin. It was then that he told reporters present that the affair offered the most flagrant case of jury fixing that he had ever known.

The jurors who stood fast in their belief in the innocence of the defendant throughout the long vigil were Charles Spore, William R. Lowe, William R. Hennessey and Walter J. Hennessey.

"Had a Fine Time."

Arthur S. Townsend, who was detained for a moment by a reporter, (Continued on page 4, fourth column.)

## LOW WATER PERILS CITY

Fergus Falls Is Scene of Fire That Does \$60,000 Damage.

Lack of Wind Alone Prevents Razing of Business Section.

Fergus Falls, Minn., June 29.—(Special to The Herald.)—Fire broke out this morning in M. D. Currie & Co.'s soft drinks establishment in Lincoln avenue, and did damage estimated at more than \$60,000.

Owing to the low stage of the river it was hard to secure good water pressure, the water works system being run by water power. As everything was very dry the flames spread rapidly. The Currie establishment, Holton stables, millinery, the Western store building, Ely & Ebers grocery, Leslie Wade's pool and billiard hall, Thomas' ager's soft drinks shop, Norden hall and Herman Maus' repair shop all were totally destroyed.

The windows of the Fergus Falls National bank and several other fine business blocks were cracked. Had there been a hard wind from the northwest the entire business section of the city would have gone. The fire was confined to frame buildings, the flames being stopped when the first substantial brick structure was reached.

Ely & Setter carried \$20,000 insurance. Nordenhall was insured for \$20,000. Weatherston for \$1,500 and Herman Maus for \$12,000.

## SINGER AND NOTED CONDUCTOR DEAD

Bodies of Dr. Obrist and Anne Sutter Are Found Together.

Stuttgart, Germany, June 29.—Dr. Aloys Obrist, the famous musical conductor, and Anne Sutter, a court singer, were found dead together today. Both had been shot. Appearances indicated that one had been murdered and the other had committed suicide.

Dr. Obrist was born at San Remo, Italy, in 1867. He conducted the Royal Opera house here in 1907 and 1908.

## GAMBLING LID AT MT. CLEMENS

Business Men's Protest Is Heeded By the Local Authorities.

Mount Clemens, Mich., June 29.—The police commission has ordered the closing of the gambling institutions in Mount Clemens. A number of merchants had complained that the city was gaining an unenviable notoriety, and they announced that they would refuse to contribute further to the municipal advertising fund as long as the gambling institutions were permitted to contribute \$600 per year each.

## GETS THIRTY YEARS IN PEN

Powell Agrees to Plead Guilty to Second Degree Murder.

Warrenton, N. C., June 29.—The Powell murder trial ended abruptly today by counsel for both the prosecution and defense agreeing to a verdict of murder in the second degree. Judge Ward sentenced Powell to thirty years in the penitentiary.

## BIG AIRSHIP IS TOTAL WRECK

Months of Work Needed to Repair Damage to the Zeppelin Flyer.

Osnabruck, Germany, June 29.—Count Zeppelin, disappointed but not discouraged, hurried here today to superintend the salvage of his latest aerial model, the great airship Deutschland, which came to grief in less experienced hands yesterday.

The count, who will be 72 years of age Friday of next week, has an engagement for the near future to fly from Friedrichshafen to Vienna and exhibit his invention to Emperor Francis Joseph, and he proposes to make good his promise.

The prospects for the early resumption of the passenger service, however, are not bright. The airship company announces that the accident will necessitate a suspension for several months of the advertised excursions, but also that it proposes to renew this service at the earliest possible date.

It was found today that it would be necessary to completely dismantle the airship.

## IS FINED FOR "COTTON LEAK"

E. S. Holmes, Jr., Pays \$5,000 for Part in Scandal of 1905.

Washington, June 29.—Edward S. Holmes, Jr., former associate statistician of the department of agriculture, indicted in 1905 for misconduct in office in connection with the "cotton statistics leak," today pleaded guilty in criminal court No. 1. He was fined \$5,000, which he paid.

WEATHER: Partly cloudy tonight and Thursday; slightly cooler tonight; moderate winds, mostly southerly.

Stoves, furniture, bicycles, pianos, typewriters and every other movable object can all be disposed of very quickly by a small want ad under "For Sale Miscellaneous."

One of these want ads does its work so quickly that it is seldom necessary to insert it for more than one or two times.

RATES—FIFTEEN WORDS FOR FIFTEEN CENTS.

## HAS INVENTED FLYER DIFFERENT FROM WRIGHT MACHINE

A. L. PFIZNER IN HIS MONOPLANE.

In a coal black monoplane, built radically different from any other aeroplane yet devised, A. L. Pfizner, the inventor, is making a series of remarkable flights near Newburyport, Mass. He does not use the warping tips nor the rear rudder which the Wrights have made the basis of their suits against nature. Mr. Pfizner has not patented his unique landing and steering devices and does not intend to do so. He invites all who are interested to examine his ideas and to utilize them in any machine they build.

## LOSES HOME IN FLAMES

Fire Destroys the House Occupied By Fred Fraser.

Adjoining Buildings Threatened—Grass Fires Are Numerous.

Fire this morning completely wiped out the home of Fred Fraser, a longshoreman, residing at 312 South Fifty-eighth avenue west, the members of the family escaping from the burning house in their night clothes. The blaze also destroyed the roof and burned a portion of the siding on the adjoining building, at 310 South Fifty-eighth avenue west, and occupied by Frank Baugin.

The origin of the fire is a mystery, the blaze having started in the front of the building, presumably on the porch. The frame house was as dry as tinder and once alight, the structure burned like a pile of straw. The blaze had a good start when it was first noticed.

The attention of the members of the family of Louis L. Burton, living at 312 South Fifty-eighth avenue west, was attracted by the smoke which was smoldering in the front of the building, and after notifying the fire department, they helped the family escape from the house. Nothing of any value was saved from the burning building.

When the fire department arrived, the blaze had gained considerable headway and the fire-fighters from No. 8 encountered much difficulty in preventing the flames from spreading to adjoining property. As was the case with the Fraser house, the fire was under control, the roof and a part of the siding were consumed.

The total loss will probably be about \$2,000, partly insured. Some damage by smoke and water was done to the furniture in the Baugin home.

Small brush fires are burning today on the hillside above the Duluth Misabe & Northern tracks and people living in the vicinity are living in fear of a serious conflagration.

Whenever the brush fires grow to alarming proportions, the West Duluth firemen are called, but this morning the fires were confined to a few smoldering patches, which the residents in the vicinity had under full control.

Yesterday afternoon the department made a run to Fortieth avenue west and Eighth street, where a grass fire was burning. When the firemen put it out, it had surrounded a new dwelling house which has not yet been occupied.

Fred A. Anderson of the West Duluth department last evening and before he could be arrested, he had to be surrounded by a squad of police.

Anderson was attracted to the home of Dikolovich, 329 South Fifty-seventh avenue west, by the sound of shooting about midnight. When Anderson arrived, he found Dikolovich on the steps. The man threatened Anderson's life if he approached a step. When Anderson continued he narrowly missed being shot in the head.

Anderson returned to the station and accompanied by Sergeant Barber and Patrolmen Monahan, D. Olson, Brown, and S. Olson, the patrol wagon, went back to Fifty-seventh avenue west. In the meantime, he had taken himself to the attic. An officer found him in a stove and had dragged him out. He was lodged in a cell at the station.

This afternoon he will be arraigned in police court charged with assault, second degree.

After the hay front had been dragged for several hours yesterday afternoon, the body of the West Duluth young man who was drowned yesterday, was recovered and identified as Bertil Bertilson, 20 years old, a son of Andrew Bertilson of 4218 Oneota street.

The young man had been swimming during the afternoon with other boys at the foot of Forty-seventh avenue west, when it is thought that he was seized with cramps. He went down in eighteen feet of water.

The young man had been swimming back and forth between the bank of the Duluth Transfer and a sand bar about two rods away.

The police were notified and Officer L. D. Root was sent to the scene. With Albert Olson of the Quiltraut undertaking establishment, the officer searched the bay front. About 8 o'clock last evening the body was recovered.

Bertil is survived by his father, mother, two brothers, Ole and George, and one sister, Mrs. J. A. Liefors of Twenty-fourth avenue west and Second street.

The family has lived in Duluth for the past three years.

The funeral will be held tomorrow afternoon.

Barber shops at West Duluth will be closed from midnight, July 2, to the morning of July 3, on account of the big celebration of the glorious Fourth at West Duluth this year.

This was decided upon at a meeting of the razor wielders last evening. The shops will stay open for business until midnight Saturday, and after that there will be no chance to get shaved until the morning of the Fourth.

The barbers' union of West Duluth will take part in the parade on the morning of the Fourth.

expected to revolutionize the construction of concrete elevators and other similar structures.

The patent, which Connelly and Carl P. Bohland, formerly of Superior, now of Seattle, Wash., had applied for several months ago, was granted last week. The joint invention was put out when Connelly was working for the Barnett & Record company and Bohland was holding a position as inspector at Great Northern.

The new invention is a moulding machine, so designed that the raising of the forms for the concrete walls may be accomplished with much greater speed and less difficulty than by the present methods employed. Engineers who have examined the patent, speak well of it. The raising is done by wheels, instead of ratchets.

Arrangements may be made for the manufacture of the devices here at the head of the lakes. Connelly, who has since died, was the son of a third avenue west.

West Duluth Briefs.  
Frank H. Wade and family are expected back tomorrow from Dallas, S. D., where Mr. Wade has been for a few days.

One-half price sale on all trimmed and untrimmed hats at Miss Grovelli's, 222 Central avenue.

The Young People's Society of the Swedish Mission church, Fifty-fifth avenue west and Green street will give an ice cream social tomorrow evening at the church. A musical program will be given.

Celebrate the glorious Fourth by wearing a McCalland trimmed hat, now half price. Be early.

Return of the big fight, P. Deloy's saloon, 204 Central avenue.

Mike Yodovich, Rob Brodovich and Pete Skadovich, who were arrested yesterday morning for fighting in the street in front of a saloon at 5502 Raleigh street, are having a hearing this afternoon in police court.

Dr. and Mrs. H. W. Greeley, a daughter, and a son, are in a few days for Evansville, Ill., where they expect to make their future home.

A coroner's reception will be given tomorrow evening at the Ashbury M. E. church, sixteenth street and Raleigh street. Dr. Greeley is a dentist in the Duluth block.

In the wedding presents, Hurst, West Duluth Jeweler.

The wedding of Miss Adella Hallen, daughter of Mr. and Mrs. John Hallen of 5306 Wadena street to Arthur Wick will take place this evening at the St. John's Swedish Lutheran church, Fifty-sixth avenue west and Ellor street.

Rev. John A. Krantz, pastor of the congregation will read the wedding service.

Children's hats at reduced prices for the Fourth at Lindgren's, 305 Central avenue.

Ways of the Phalaropes.  
In This Bird Family the Male Sits on the Nest and Hatches the Brood.

Toronto Globe: Whether years are bringing changes in the ways of the birds or their habits are better known and more carefully observed from year to year there is a growing frequency in the reports of wanderings from accustomed routes of travel.

The northern phalaropes, familiar along the coast in their migration to and from their remote breeding grounds, do not often wander inland. But this fall the deceptive expanse of the great lakes and the wide expanse of the prairie brought a straggler by the overland route.

The phalaropes are peculiar in many ways. They are ploverlike birds, running along masses of weeds gathering a supply of minute insects. But instead of the slender feet of the plover and sandpipers they have lobed toes that render them expert swimmers. They seem almost ridiculously small and insignificant when swimming courageously over the waves in a breaking surf.

In domestic affairs the phalaropes have adopted the most startling of modern innovations, and if they ever establish political organizations, the chief question will be as to the wisdom of extending the franchise to males. The female is the larger, and in summer wears a gay costume of black, white and buff, with a reddish brown gorget.

In this she sports about on the shore of her arctic summer resort, while her insignificant partner, in sombre plumage, sits on the nest, hatches out the brood and attends faithfully to the duties of his appointed sphere.

Having the more important duties to discharge, he is naturally less conspicuous than his gay and proudly attired partner. Some day there may be a suffragette movement among the male phalaropes, but so far they have been content to do their duty as they are directed by the heads of their respective households.

When the period of domestic life is over they venture almost to assert themselves and assume a place in the mixed flocks. The heads of the several households have then left off their gay plumage and the natural disparity is not so apparent. On the southward journey there may be a passing recognition of something approaching equality, for travel and contact with strange habits and unfamiliar views of life may have its effect, even in the lofty night flights and the days of lingering recuperation.

No matter how great a penchant a woman may have for large hats, she must possess at least one small toque this season if she hopes to be considered smart.

## SOME FINDINGS MADE IN RAILROAD RATE PROBINGS

Washington, June 29.—In fixing the rates to Spokane in its railroad rate decisions today, the interstate commerce commission did not use the rates to Seattle as a standard, but adjusted the rates to Spokane upon what it considered to be a reasonable basis, taking into account that water competition at Spokane was not material. Then the commission held as follows:

Joint through rates—both class and commodity—should be established from defined territories east of Chicago to Spokane.

"Where joint through rates do not now exist from points east of Chicago upon certain lines to Spokane, the commission finds that there is no reasonable and satisfactory through route and that such through routes and joint rates ought to be established."

Lower From River Points.  
"Both class and commodity rates should be slightly lower from Mississippi river points to Spokane than from Chicago points."

In the Spokane opinion it was also held that the rates to Baker City, Buhl, Pendleton, Or., and Walla Walla, Wash., were excessive in so far as they exceeded the new rates fixed to Spokane.

In order to protect with caution, the commission determined before making a final order to ascertain by an actual test the result of the present and proposed new rates. The carriers will be required, therefore, for July, August and September, to keep a detailed account, showing the revenues which accrue upon business actually handled under present rates and the revenues which would have accrued had the rates prescribed by the commission been in effect.

Condemns Nevada Rates.  
In the Southern Pacific-Nevada case the commission condemns the existing westbound class rates from Eastern points to Nevada, as the "highest main line rates in the United States."

For carrying a carload of first-class freight containing 20,000 pounds from Omaha to Reno, the Union and Southern Pacific lines charge \$355. If the same carload goes 124 miles further to Sacramento, the charge is only \$600.

If the same carload of freight originated at Denver, 500 miles west of Omaha, the same rates to Reno and Sacramento apply; and if the freight originates at Boston, 1,700 miles east of Omaha, the rates are the same.

It is significant, says the opinion, that the lines out of Ogden, Utah, receive exactly the same divisions out of the so-called "water compelled" rates to Pacific coast terminal points as they received out of the vastly higher rates to Nevada points, "the entire difference being appropriated by the Southern Pacific company."

After discussing this situation, the commission adds:  
The fact remains, however, that for the 2,400-mile haul from New York to Ogden the New York Central, the Lake Shore, the Northwestern and the Union Pacific secures the same revenue out of the \$ rate to Sacramento that they get out of the \$24 rate to Reno.

NATIONAL LIBRARY MEET.  
First Gathering in Michigan at Mackinac Island Thursday.

Mackinac Island, Mich., June 29.—The annual convention of the National Librarians' association commences here tomorrow. It is the first time that the American Library association selected Michigan for its annual meeting.

Delegates will be present from all parts of the United States and Canada and the Philippine Islands. Friday, July 1, Michigan day and the delegates from Michigan will be welcomed by Mrs. Spencer, state librarian.

"Agricultural Libraries" will be discussed, also the sort of books of highest practical and culture value to people remote from cities and towns.

When pay days stop, rent days come along—a galloping. Want advertising can—if persisted in for a reasonable time—restore pay day to your regime of life.

**DULUTH STORE: 313 West Superior Street**

Send for a catalogue of our new spring and summer shoes.  
R. H. Long, Maker, Factory, South Framingham, Mass.

## B. & O. TRAIN KILLS FOUR WORKMEN

Rushes Full Speed on Gang  
at Work on Railroad  
Trestle.

Baltimore, Md., June 29.—Four men are dead, one is said to be fatally injured and three have less serious hurts as a consequence of a passenger train, coming at top speed this morning upon a gang of eleven carpenters engaged in making repairs to a trestle of the Baltimore & Ohio railroad north of Mount Royal station. One of the injured and one of the three who escaped injury declare that the passenger train gave no warning of its approach.

## VEAL SHIPPERS MORE CAREFUL

Wholesale Condemnation of  
Meat Is Having Salutary  
Effect.

Veal shippers have evidently decided to be more careful. Out of forty carcasses received by express in city today not one was found which had to be condemned. All of them were cold, showing that they had been properly cared for in transit. Thus far this month over 5,000 pounds of meat, mostly veal, has been ordered destroyed because it was good for nothing but fertilizer. The amount is the largest in the history of the health department for any one month. It is greater for the single month than the combined quantities which were condemned all last year.

A rusty butcher knife was confiscated from a shop on St. Croix avenue this morning. It had been used for cutting off fish heads, and looked as though it might have been used in the ark. The sausage machine was also ordered cleaned.

**Sample Shoes!**  
Right Out of the Traveling Men's Grip—Men's and Women's Oxfords and Pumps, in all leathers, worth from \$3.50 up. See them in our window—while they last—  
**\$2.45 \$2.95**  
—and—

SPECIALTY SHOE HOUSE,  
17 Second Avenue West—the Alley Corner.

## RAILROADS

### HEAVY TRAVEL ON THE RAILROADS

Warm Weather Stimulates  
Instead of Retarding Pas-  
senger Business.

Despite the torrid weather, which one would think would make traveling a torture, railroads at the Head of the Lakes are reported to be enjoying a prosperous passenger travel at the present time.

According to reports here, there is a very heavy passenger travel to the East because of the many excursions. Also, it is reported that the travel between Duluth and Chicago is unusually heavy at the present time.

The freight officials of the different Duluth roads report that the opposite conditions. It is stated that the roads are waiting now for the recovery report on the freight rate situation. There is comparatively little freight being moved by the roads at the Head of the Lakes at the present time.

This is the dull time for freight traffic and the shipments are unusually light even for the time of the year. The passenger travel from Canada via the Duluth gateway continues heavy. Today forty English and Russian immigrants who came to Canada by the Quebec steamship route, and were carried to Chicago over the Grand Trunk, and from Chicago to this city over the Northwest, reached here. These immigrants are on their way to Winnipeg from that point they will be distributed to the different agricultural sections of Manitoba and other provinces. Sixty more immigrants are due to arrive here tomorrow.

## MANY SEEKING JOBS AS PORTERS

Colored Men Anxious to Get  
to Reno for Big  
Fight.

Every Duluth railroad has on file a number of applications from colored citizens, some with railroad experience and others with no experience gained on the rumbling rail, who desire to witness the big fight between Mistah Jack Johnson and Mr. Jeff.

There is a fervent desire among the citizens of Duluth to see this fight. To a man they harbor the opinion that Mistah Johnson will be returned the winner in the fight of a century. To witness the fight has become to be an obsession with many of the city sports. They have turned with hope in their eyes to the roads.

Many applications have been received from colored men who would like to try their hands at cooking between Duluth and Reno. Others have asked that they might be employed as waiters on any train that was going anywhere in the general direction of the divorce section of the country.

Before the fight was switched from San Francisco to Reno, several special trains had been planned for practically all of the special trains, with the result that many of the citizens of this city who had gleefully counted on seeing the fight, were disappointed with despair of a hue matching their complexion.

Duluth men say that every Pullman porter who gets in the vicinity of the fight is likely to be in the line of his job. The colored brother is anxious to see the fight, and if any of them can work the railroad for transportation, they will be there.

## BOOST MACHINISTS' PAY.

Great Northern and Northern Pacific Gives 2 Cents an Hour Increase  
St. Paul, Minn., June 29.—The machinists employed on the Great Northern and Northern Pacific have succeeded in securing an advance in pay of 2 cents per hour, dating back from June 15. There are 1,400 men involved.

## MARINE NEWS

### NORTH WEST ARRIVES ON FIRST TRIP.

The steamer North West came last evening for the first trip of the season. The passenger list is considered good for the first trip of the big steamer. Capt. George A. Minar, who has been in command of the boat for the last fifteen years, will be in charge. The North West left shortly after 11 o'clock for the return trip down the lakes.

### Reports on Dredging.

The following notice as to the progress of dredging at Grand Marais harbor and at Ontonagon has been received at the branch office of the United States hydrographic office:  
"On May 28, 1910, dredging was begun on the sand bar at the entrance to Grand Marais harbor, Lake Superior. A large dredge is employed, and it is expected that the work will be completed before the end of June, giving deep water for the full width of the entrance (500 feet)."  
"Further information has been received that no dredging was done between the entrance piers at Ontonagon. The water depth in May, 1910, as available depth of 13.7 feet was found by the survey of April 14-15."

### Sault Passages.

## DANCE

Don't forget to go to Lincoln Park every Wednesday evening and enjoy the Scandinavian dance. Ladies free. Door rights reserved.

## ADDITIONAL SPORTS

**BIG WAGER THAT JEFF  
WILL SCORE KNOCKOUT.**

Chicago, Ill., June 29.—Louis Houseman, the former sporting writer, announced here today that he has \$10,000 to bet that Jeff will score a knockout in the seventh round of the big fight at Reno.

"I will bet the money for my friends, \$10,000 to \$100,000 to \$1,000,000, that Jeff will score a knockout in the seventh round of the big fight at Reno," said Houseman.

## SECURE GROUNDS NEARER THE CITY.

The shooting exhibition of the Topperwells, the eminent rifle and revolver shooter, which will be held here tomorrow afternoon, will be held in the new grounds at the golf course, instead of at the golf grounds, as previously announced. The new grounds are nearer the city and are more secure, where the wonderful exhibition of shooting will be held.

## MCBRIDE AND KENNEDY WIN TENNIS MATCH.

One match in the tennis tournament that is being played at the Northland Country club, was played yesterday. McBride and Kennedy defeated Wilson and White, 7-5 and 6-4. McBride and Kennedy will play against McLeannan some time in the present week. The winner of this game going into the final round of the tournament will probably be played Saturday.

Wilson and White are expected to meet Cutler and Duncan some time in the present week.

## DANCE!

At Fairmont Park, Wednesday evening, June 29, from 8 to 11 o'clock, the following dance will be given: McBride and Kennedy, Wilson and White, 7-5 and 6-4. McBride and Kennedy will play against McLeannan some time in the present week. The winner of this game going into the final round of the tournament will probably be played Saturday.

## INSURANCE MEN FOUND IN TRUST

Underwriters at Newport  
News Convicted of  
Conspiracy.

Newport News, Va., June 29.—President Dan B. Harris, General Manager A. B. Andrews and twenty-one members of the Southeastern Underwriters association were convicted here today in a magistrate's court and unlawfully conspiring to control insurance rates in this city and were fined \$500 each. The cases were opened.

\*\*\*\*\*  
BELOW FREEZING IN SOME PLACES IN DULUTH.  
\*\*\*\*\*  
Imagine a sheer drop in temperature of nearly 100 degrees below freezing in some ice boxes. It is possible to experience the sensation right here in town, several places have artificial freezing plants. While the mercury has been stirring with the thermometer, it has been chattering in its boots at 10 to 15 degrees below freezing in some ice boxes. Step into one of them and you will find the thermometer chattering in its boots at 10 to 15 degrees below freezing. In a second you'll be shivering with the cold and the thermometer for the door. These refrigerators are used for freezing meats and other products which can be preserved in this manner.

## PIERCE BUTLER PUTS WITNESS UNDER QUIZ.

Kansas City, Mo., June 29.—In the bleached flour cases here today Robert R. Clark, a miller of St. Joseph, Mo.,

## TRUSSES FOR RUPTURES.

Abdominal Supporters, Surgical Elastic Hosiery and Belts, Shoulder Braces. We carry a complete line of all the above.

**WIRTH'S RED CROSS  
FREE DELIVERY.**  
13 West Superior Street.

testified that bleaching improved the color and food value of flour. Here Butler of St. Paul, for the government, asked the witness why he did not stop selling unbleached flour. If bleached was better. The witness said some customers demanded unbleached flour. Mr. Butler then asked the witness about a carload of bleached flour from his mill, consigned to a customer in Georgia, that had been seized at Nashville by the government.

## SAY FLOUR IS NOT HURT BY BLEACHING

Witnesses Are Heard in Case  
in Federal Court in  
Missouri.

Kansas City, Mo., June 29.—Supporting the contention of the millers that the bleaching of flour does not injure the digestibility or bread-making qualities of the product, several witnesses testified at the bleached flour trial in the federal court here today.

Any nitrites taken into the body through the eating of bread made from bleached flour, said the witnesses, is of no account, as it is in direct opposition to that previously mentioned. This testimony was given by Dr. Albert W. Rockwood, professor of toxicology in the University of Iowa. This testimony was in direct opposition to that previously mentioned. This testimony was given by Dr. Albert W. Rockwood, professor of toxicology in the University of Iowa.

Dr. Rockwood said he had taken eight grains of sodium nitrite in two grain doses and had experienced no ill effects from it.

## TRICKS OF WEARY AUTHORS.

When a man who writes dime novels is living in a Saturday evening and his nerves and sometimes on his conscience. He then sets about making the work easier and devises a labor saving scheme that allows him more leisure for employing the nooks of New York's red ink Bohemia, says the New York Sun.

One man so afflicted has placed his name high on the roll of cheap fiction by conducting a literary sweatshop in which he employs a host of writers. He is simply himself owing to the kind of story he was writing at the time.

He was engaged on a series of Indian novels that appeared weekly with the name of the author. He had a couple of hunters and trappers. At the opening of each story these personages would be chasing bands of other varmints of the plains, and at every other chapter would bring them to a standstill before a campfire where one of the hunters entertained his companion with a long yarn that had nothing to do with the story itself. These yarns were copied verbatim from a file of old clippings by his wife and then inserted in the story.

Another weary author's scheme for lessening the labor of writing took a different turn. In his yellowback sentence was paraphrased. This enabled him to fill the regular quota of needed text when the story was actually one-third short.

But still he was equal to the emergency. The next time he introduced a stuttering character whose talk served a over pretty much the whole novel.

He took so long to say what was on his mind that one day when talking in the woods to a companion and walking in a circle, as people generally do when they are thinking, he came back to the starting place and found that the companion had been hanging shot, shot or down the character and let the hero still hanging over the cliff, waiting to be rescued by his creator!

Another weary author's scheme for lessening the labor of writing took a different turn. In his yellowback sentence was paraphrased. This enabled him to fill the regular quota of needed text when the story was actually one-third short.

But still he was equal to the emergency. The next time he introduced a stuttering character whose talk served a over pretty much the whole novel.

## Inexpensive Thursday Specials

for ye woman of ye cool-loving raimente—  
It is rather unfair to the hosts of hot weather garments that are at your service here today to pick out these for emphasis. But they are so timely and so desirable that they will serve well to point the moral and adorn the tale.

## \$12.50—Linen Suits

Of a hard-wearing Russian linen, built for service; well tailored in natural color; trimmed with embroidered dots—also tones of blue, helio and brown. Regular prices of these suits, under ordinary circumstances, would be \$15.00.

## \$6.75—Linen Dresses

Nothing so desirable and cool on a hot day as a Linen Dress. These on sale today, are in natural color and button on the side, instead of the front—the new way, with rajah collar, cuffs and tie and a perky leather belt.

## Waists Cool—at Trifling Cost

Persian Lawn Waists—With low neck and short sleeves—collar, cuffs and pockets trimmed with lawn braid, \$1.50.

The New Tennis Blouse Waist, at \$1.50—of white lawn, with short sleeves and colored band trimming.

New Jack and Tar Waists, at \$2.00.

Dutch Neck and Short Sleeved Models—Exquisitely trimmed with embroidery and lace, at \$2.50 and \$3.50.

Fresh New Models—Regular \$1.50 waists—also a few tumbled lingerie models that sold up to \$2.00, as well as colored tailored waists, in blues and lavender, with tan and green stripe—on sale tomorrow at 69c.

## More New Parasols

The new shipment will give added zest to the already fine showing of Summer Sunshades HERE.

LINEN PARASOLS from \$1.75 to \$3.50.

Prices of the more expensive kinds as high as \$18.00.

Get yours NOW—when you can use it to the very best advantage.

## The Undermuslin Sale

Is certainly a busy place this undermuslin weather. Up to date the business has broken all previous records. Here are some of the reasons:

## For \$1.00

A tableful of COMBINATIONS—Drawers and covers, skirts and covers that are regularly \$1.50 and \$2.00.

New Barred Muslin Slip-Over Night Gowns that sell usually at \$1.50.

Princess Slips—Of fine cambric, with fine tucks, feather stitching and lace insertion—neck daintily trimmed with lace; \$4.50 values at \$3.25.

Fresh assortments just received of the popular La Grecque Tailored Underwear.

unlifted hand. The right has not been exercised, our contemporary adds, because the majority of witnesses, however great their dislike to the insatiable cath, have been unwilling to make themselves conspicuous in a court of justice by making an unusual request.

With the abolition of "kissing the Book" in England the insatiable cath will practically disappear from the civilized world. In France the judge says: "You swear to tell the truth, the whole truth and nothing but the truth" and the witness, lifting up his right hand, answers, "I swear." In Austria the witness says, with uplifted hand, "I swear by God, the Almighty and All Wise, that I will speak the truth, the pure and full truth and nothing

## "Just Say" HORLICK'S

It Means  
Original and Genuine

## SAYS FIGHT IS ALL OVER

Oklahoman Tells of Battle  
for Site of State  
Capitol.

### How Oklahoma City Plans to Raise Money for Building.

N. S. Sherman of Oklahoma City, who is interested in a foundry and machinery plant at that place, has been in the city, accompanied by Mrs. Sherman, for several days, a guest at the Spaulding hotel.

Mr. Sherman talks very interestingly of the recent capital removal fight in his home state and of conditions in general in the state. He is a native of Pennsylvania and lived in many different cities before locating in Oklahoma.

"The capital fight is over now, except for such litigation as may be carried on in the courts," said Mr. Sherman. "It is probable that the appeal from the federal court decision in favor of Oklahoma City will be carried to the supreme court, but the result is a foregone conclusion and the capital will remain where it is now."

When Governor Haskell removed his office from Guthrie to Oklahoma City he established himself and his staff in the Lee hotel, and from there removed to what is known as the high school building, which is amply large enough to accommodate the executive departments except for a few minor offices. This building will continue to be used as the temporary capitol until the new one is built.

There is adequate provision for meetings of the legislature and the executive departments. At Guthrie the state offices were scattered about town wherever place could be found for the transaction of business. The state paid \$2,000 annually for the privilege of using a hall during legislative sessions. The congressional enabling act stipulated that Guthrie was to be the capital until 1912, and the people of the state devoted to reject this arrangement, but nevertheless the president signed the bill. Our legislature later ordered an election, to be held June 11, to vote on the question of the permanent location of the capital. In this election Oklahoma City was victorious by a majority of 4,000. Guthrie was fighting hard for the prize, and Shawnee city was in the field, more as a decoy in the interests of Guthrie than for its own sake.

Oklahoma City has four trunk lines of railroad and Guthrie and Shawnee but one each.

**City Must Build Capitol.**  
The state constitution provides that the city which is selected as the permanent capital must build the capitol, the cost of which is not to be less than \$1,500,000. Oklahoma City proposes to provide the building fund by levying a tax on the city and on the land within its limits, and to be paid by a board of trustees. When \$1,500,000 has been realized the city will be able to build the capitol.

"Oklahoma City is the only community in the state that can do this. It has done it before. When it was desired to induce the Morris Packing company to locate there a bonus of \$500,000 was raised for the purpose in mind. Then a tract of land within six miles of the business center of town was purchased for \$150,000. It was sold, and after about half of the tract had been disposed of in this way enough money was realized to pay for the tract to be sold for \$150,000, and to deposit a balance of \$150,000 to the credit of the treasury. The Schwarzchild & Sulzberger packing company has also come to Oklahoma City, getting a tract of land for \$150,000. The packing plants are now being built, and the Morris plant is just about completed."

Mr. Sherman's boasting proclivities are always in evidence, and he told with pride of his city's growth. Ten years ago Oklahoma City had a population of 10,000, now it is 25,000, and Mr. Sherman has no doubt of the destiny of the city as the most magnificent of any in the Southwest.

**Will Be Republican.**  
Speaking of political conditions in the state, Mr. Sherman declared it to be his belief that Oklahoma is likely to be a Republican state, because the people of the state are dissatisfied with the way things have been handled.

A great many people are coming into the state, and especially into cities from the East and North, said Mr. Sherman. Every part of the nation is represented in the population of Oklahoma, and nearly every state is represented in the population of Oklahoma. The Pennsylvania society has a membership of 4,000 in Oklahoma.

"I believe the people will vote this fall to knock out the prohibition clause in the constitution. Certainly."

### CITY NOTICES.

**OFFICE OF THE COMPTROLLER.**  
City of Duluth, Minn., June 28, 1910.  
Notice is hereby given that an assessment levied to defray in part the expense of constructing a sanitary sewer in Seventh alley, in said city, from Sixth street to Eighth street, East, to a connection with the sewer about 10 feet East of Eighth street, East, according to benefits, is now payable at the office of the City Treasurer.

A penalty of ten (10) per cent will be added if payment is not made on or before July 25, 1910, and the said assessment will then bear interest at the rate of six (6) per cent from June 17, 1910 to date of payment.

W. S. MCCORMICK,  
City Comptroller.  
D. H., June 29 and July 7, 1910. D 52.

**OFFICE OF THE COMPTROLLER.**  
City of Duluth, Minn., June 28, 1910.  
Notice is hereby given that an assessment levied to defray in part the expense of constructing a sanitary sewer in Wicklow alley, in said city, from Winnie Avenue to Grand Forks Avenue with outlet in Grand Forks Avenue to the sewer in Exeter Street, according to benefits, is now payable at the office of the City Treasurer.

A penalty of ten (10) per cent will be added if payment is not made on or before July 25, 1910, and the said assessment will then bear interest at the rate of six (6) per cent from June 17, 1910 to date of payment.

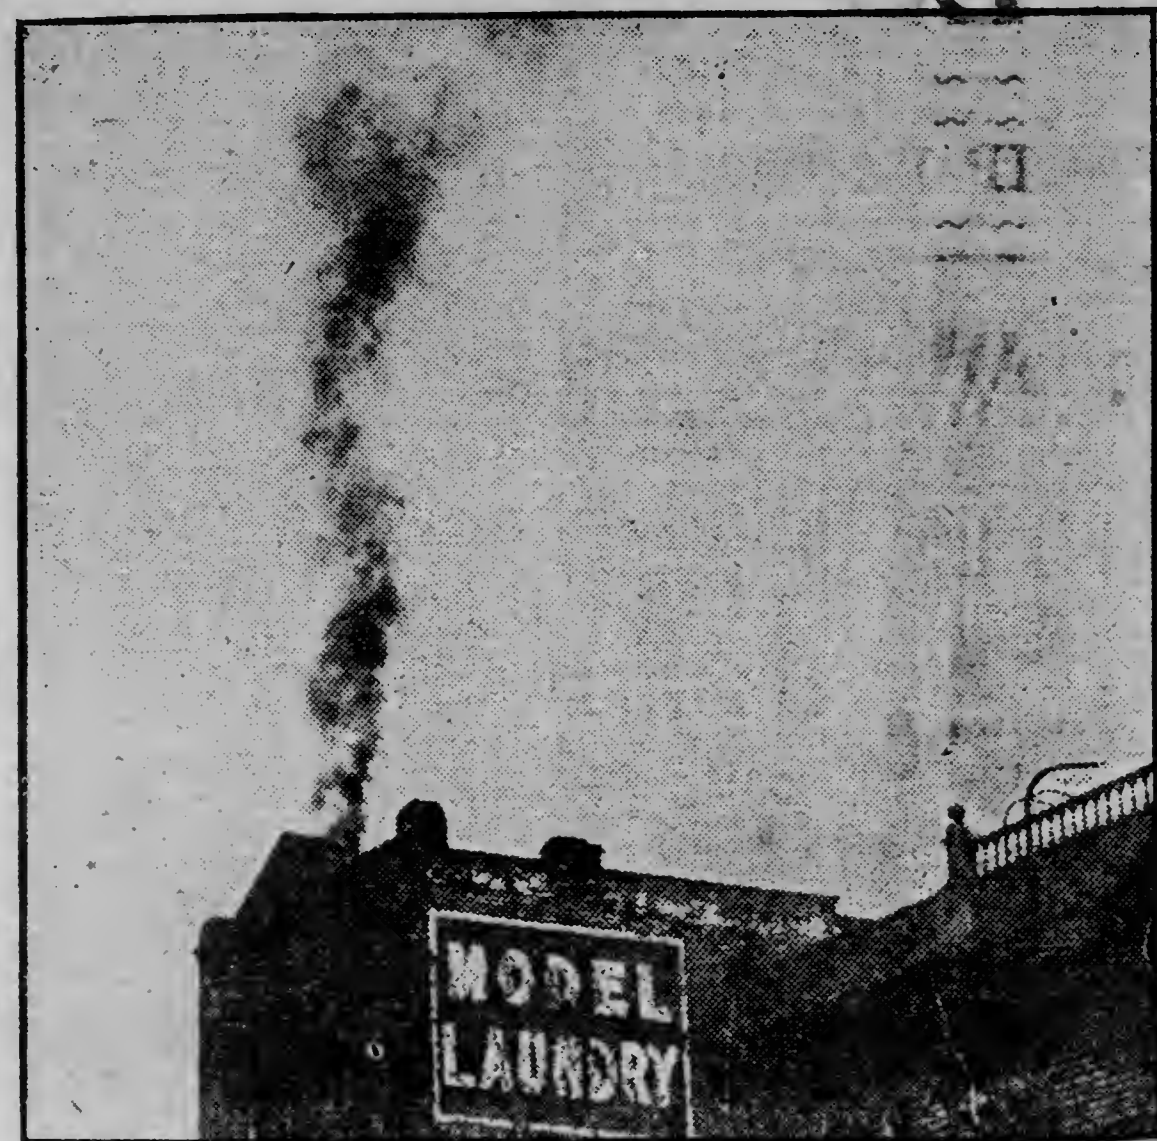

W. S. MCCORMICK,  
City Comptroller.  
D. H., June 29 and July 7, 1910. D 53.

**OFFICE OF THE COMPTROLLER.**  
City of Duluth, Minn., June 28, 1910.  
Notice is hereby given that an assessment levied to defray in part the expense of extending the sanitary sewer in Sixth alley, in said city, from its present terminus at the West line of Sixth street to Fifty-eighth Avenue West, according to benefits, is now payable at the office of the City Treasurer.

A penalty of ten (10) per cent will be added if payment is not made on or before July 25, 1910, and the said assessment will then bear interest at the rate of six (6) per cent from June 17, 1910 to date of payment.

W. S. MCCORMICK,  
City Comptroller.  
D. H., June 29 and 30, 1910. D 48.

## DULUTH'S SMOKE NUISANCE

THIS IS A FAIR SAMPLE OF DULUTH'S CHIMNEYS. IT SHOWS WHY MERCHANTS LOSE THOUSANDS OF DOLLARS YEARLY AND WHY HOUSEWIVES SOMETIMES HAVE TO DO A DAY'S WASHING OVER AGAIN, IF THEY LEAVE THE CLOTHES ON THE LINE TO DRY.

It should be done. Existing conditions are simply awful, and the counties have been put to tremendous expense in the prosecution of bootleggers. Indeed, so heavy did the burden upon them become that they were forced by fear of bankruptcy to leave the enforcement of the law to the state enforcement officers, who now are especially charged with the work.

The criticism has been made, and apparently not without foundation, that this system has resulted in corruption of enforcement officers. Under the law the officials responsible for the conviction of a bootlegger are entitled to a reward of a half the value of the goods seized but, where the traders in contraband make an arrangement with the grafting official, seizures are few. It is a fact that some of the joints of Oklahoma have never been "pulled." Everyone knows they are being operated, but the police have no jurisdiction over them. The result is not abandonment of the business. It is simply one of the features of war, merely an incident and the dealer is soon back in the business.

"Of my own knowledge I can say that more intoxicated men are seen on the streets, especially on Sundays, than were ever seen before prohibition was put in force. The Democrats refused to put a prohibition plan in their platform, the Republicans did it. Politically, the negro of the South-west is an unknown quantity to the extent, at least, that you can never tell where he stands. Election time is the only time in the year when he really believes that he amounts to something, and he makes the most of it—and out of it. I know the negro pretty well. He is a creature of the state committee in Texas years ago and got well acquainted with the willies."

"Labor in the Southwest necessarily is largely colored labor, and I am a large employer. I have never been able to influence the negro vote as they should for their own good. It is a mistake to think that the negro of that region is composed almost exclusively of Democrats. There are many Democratic voters as there are Republican in that race."

"In my opinion this fall will see an equal partisan division in the state, with the Republicans a bit stronger."

**HOTEL AT FALLS.**  
President Backus of Power Company Plans Fine Structure.

International Falls, Minn., June 28. (Special to The Herald.)—During the visit of President Backus of the power company it was decided to build a hotel for the accommodation of the skilled labor and office force of the paper mills, and plans have already been prepared for the same by H. Stube, the local architect. The latter call for an imposing structure, the two wings of which will each be three stories in height, with a connecting part at the rear which will be but one story high. The building will contain practically seventy-five rooms, with frame, with basement, heating plant and all modern conveniences. It will be constructed by the International Improvement association and will be operated by a first-class hotel man under contract to care for the employees of the company at the very lowest possible cost.

One wing of the building will be 30x38 feet in size, the stories high, and will contain the office, writing and reading rooms, and bedrooms, while the other wing will be 20x38 feet in size, and will contain the bedrooms. There will be lavatories and baths on each floor, three stories in height, will parallel the main building and will contain the private apartments of the people in charge of the hotel, while the upper stories will be used for bedrooms for the stenographers and other young ladies who will be employed in the mill offices.

**CASHIER LAYS BLAME ON BANK'S PRESIDENT.**  
Indianapolis, Ind., June 28.—William Swornstedt, former cashier of the Citizens National Bank of Evansville, Ind., pleading guilty before Judge Anderson in the federal court today to the charge of violation of the national banking laws, told the judge that he made false reports to the controller of the currency on the basis of memoranda supplied by the bank's president, S. P. Gillett. Gillett arraigned on the same charge, pleaded not guilty, and will be tried in September. He was released on \$20,000 bond. The judge ordered someone on Swornstedt, and he was taken to jail.

**INTERNATIONAL FALLS IS SUPPLIED WITH WATER.**  
International Falls, Minn., June 28. (Special to The Herald.)—Water is now being furnished the village by the power company from its 200,000-gallon tank and the pressure is therefore such as to assure a splendid protection in case of fire. The connection of the mains with the tank has developed several defective pieces of pipe, which are being replaced.

**DOCTORS' PRESCRIPTIONS.**  
It has been proved over and over again that doctors of the country freely prescribe proprietary medicines in Latin for their patients until they are advertised to the public, after which time they consider it a duty to immediately condemn the very same medicine, not because the preparation is any less valuable, but because it is not "ethical" to prescribe an advertised medicine.

Some "Associations" Found.  
"We have also found that associations and clubs composed mainly or wholly of those profiting from this vice have existed, and that one such organization still exists. These associations and clubs are analogous to commercial bodies in other fields which, while not directly engaged in commerce, are composed of individuals all of whom as individuals are so engaged."

"The 'incorporated syndicates' and 'international bands' referred to in published statements, we find to be such informal relations as have been spoken of."

**Grand Forks Camp Meeting.**  
Grand Forks, N. D., June 28. (Special to The Herald.)—The annual camp meeting of the Grand Forks Church of God is being held here. There are several members of the organization in attendance.

Since the establishment of this annual camp in Grand Forks, the church has been enabled to purchase a splendid piece of camping ground and they

On our entire line of Ladies' and children's Parasols, while they last.

**A. GINGOLD,**  
Umbrella Mgr.,  
125 East Superior Street.

# THE DULUTH HERALD

AN INDEPENDENT NEWSPAPER.  
ESTABLISHED APRIL 3, 1885.  
Published every evening except Sunday by  
THE HERALD COMPANY,  
Herald Building, Opposite Postoffice Square,  
422 and 424 West First St., Duluth, Minn.  
Entered as second-class matter at the Duluth postoffice under the act of congress  
of March 3, 1879.  
TELEPHONES—Bell and Zenith:  
Business Office, 324. Editorial Rooms, 1126.  
OFFICIAL PAPER CITY OF DULUTH.

**SUBSCRIPTION RATES:**  
(By mail payable in advance.)  
Daily, one month, \$3.50  
Daily, three months, \$10.00  
Daily, six months, \$18.00  
Daily, one year, \$32.00  
Saturday Herald, one year, \$1.00  
Weekly Herald, one year, \$1.00  
Remittances may be made by check, postoffice order, registered letter or ex-  
press order. Make all remittances payable to The Herald Company. Give post-  
office address in full, including state and county.

**BY CARRIER—CITY OR SUBURBS.**  
Daily, one week, \$1.50  
Daily, one month, \$4.50  
Daily, three months, \$13.50  
Daily, six months, \$24.00  
Daily, one year, \$45.00  
Subscribers will confer a favor on the circulation department by calling 324,  
either phone or making known any complaint of service.  
It is important when desiring the address of your paper changed, to give both  
the old and new addresses.

The Duluth Herald accepts advertising contracts with  
the distinct guarantee that it has the largest circulation  
of any newspaper published in Minnesota outside the Twin  
Cities. Its value as an advertising medium is apparent.  
This heaven alone that is given away;  
This only God may be had for the asking.  
—James Russell Lowell.

## THE NORTHWEST AND THE CROP.

There is no occasion for any undue excitement about  
the crop outlook in the Northwest.

It is true that conditions are disappointing. A month  
ago the outlook was for a bumper crop, and now no  
bumper crop is possible. Damage has been done, and  
unless general rains come more damage will be done.

But on the whole it is safe to take it for granted  
that the reports of crop damage are exaggerated. They  
usually are, and the tendency now seems to be to  
take the worst reports as typical of the whole situation.  
In large areas, however, there has been rain; in only  
a few sections has there been none at all.

It is a pity indeed that the fair prospects of a month  
ago should have been blighted; but that is no reason  
why everybody should rush to steep his spirits in ink  
pessimism.

A good deal of the present dismay is due to the  
fact that people are contrasting the present outlook  
with the extraordinarily promising outlook in view a  
month ago, instead of with the average.

But even if the condition is as black as some folks  
paint it, there is one very important thing to remember:  
if there should be a complete crop failure—which is  
absurd—the Northwest never in all its history was in  
such a good position to stand the reverse.

Whatever this crop year develops, it must not be  
forgotten that it follows seven or eight straight years  
of bumper crops marketed at high prices. That is a  
longer period of uninterrupted prosperity than the North-  
west ever experienced before, and it brought more  
money into the Northwest than it ever saw before.

Some of that money is spent, no doubt, but on the  
whole a very large percentage of the fatness yielded  
by eight good years is stored up as a reserve against  
possible reverses.

In the old days farmers used to count upon bad  
years as inevitable, and they held themselves fortunate  
if there were as many good years as there were bad.  
Nobody expects that every year will be a top-notch  
year for yield and profit, and one bad year in eight is doing  
pretty well.

It is a pity that any damage at all has been done.  
The situation is bad enough, in all conscience. But there  
isn't any excuse for making it out worse than it is,  
nor should it be forgotten that even if the worst should  
come and the entire crop should be a total loss, there  
is no section in the country better able to stand it than  
the Northwest, and there has been no time in its history  
when the Northwest was better able to stand such a  
reverse than right now.

And be sure there is no such calamity threatening.  
The failure possibly may be complete in some localities, but  
it is a safe bet that when the crop is harvested the  
general total will surprise the pessimists. The North-  
west will raise enough to feed itself, and very likely  
quite a bit over that for the market. It will not go  
broke, even though not much is added this year to  
the swelling reserve which crowds the country banks  
with a supply of cash so ample that it is being loaned  
in the East.

## NOT READY FOR PASSENGERS.

Aviators are doing some tall and awe-inspiring feats,  
but yesterday's experience with Zeppelin's passenger air-  
ship shows that the air is not yet available for pas-  
sengers, and that there is no reason why railroad stocks  
should tumble for fear of a prospective loss of pas-  
senger business.

With thirty-three persons aboard, including twenty  
newspaper men, Count Zeppelin's air vessel set sail yester-  
day morning at Dusseldorf. It headed one way, but a  
strong wind rose, so it headed another way. In the  
storm one of the motors refused to work, and the air-  
ship drifted and tilted appallingly. To dodge a whirl-  
wind the airship shot 14,000 feet upward, and then settled  
down in a forest, treetops ripping the ship to pieces.  
Leaving this \$137,000 wreck, the crew and passengers  
scuttled to the ground, unharmed.

The report is not explicit on that point, but it takes  
no great stretch of the imagination to picture the huge  
relief of the passengers when they felt the comfortably  
solid earth under their feet once more.

Aviation is progressing admirably, but there seems  
to be no reason yet for abandoning the good roads  
movement.

## THE ENDLESS TRAIL OF DEATH.

Well might Puck say "What fools these mortals be!"  
if he had contemplated the manner in which the Ameri-  
can public permits the annual sacrifice of life and limb  
attendant on the conventional celebration of the Fourth  
of July.

The other evening The Herald showed that in the  
last seven Fourth's 34,603 people have been killed or in-  
jured, an average of nearly 5,000 each year. And it is  
perfectly safe to predict that in the coming celebration  
five thousand more people will be sacrificed.

The hideous joke of it is this fact:  
The Fourth is celebrated because the colonies de-  
clared their independence of Great Britain, and made

Wednesday, June 29, 1910.

## THE OPEN COURT.

(Readers of The Herald are invited to make free use  
of this column to express their ideas about the topics  
of general interest. Letters should not exceed 200  
words—the shorter the better. They must be written  
on one side of the paper, and they must be signed  
in every case by the name and address of the  
writer, though they need not be published. A  
signed letter is always more effective, however.)

## THE OPEN COURT.

With the glorious Fourth but a few  
days away it might be well to suggest  
that every precaution be taken to  
prevent the celebration becoming se-  
veral days ahead of time and ending  
several days behind time. Both par-  
ents and police should use every means  
in their power to confine the fire works  
and cannon crackers to the one day.

But John Bull isn't either hardhearted or revengeful.  
Whatever feeling he might have about our cutting  
loose from the mother country and setting up business for  
ourselves has been softened long ago, and John really  
is a pretty good friend of ours. So if he thinks about  
it at all his heart must bleed at the reckless folly of a  
method of celebrating a nation's freedom that rolls up  
a ghastly toll of death and disaster than an ordinary war  
could achieve.

Says the New York Times: "Only a robust patriotism  
can prevent the adult American from regretting that his  
country ever achieved its independence, when the cus-  
tomary 'noisy Fourth' is splitting his ears and shattering  
his nerves as he has survived the strain and racket  
of the days we do not celebrate. And that same patriot-  
ism should prevent our inflicting upon ourselves, an-  
nually, a greater loss in killed and wounded than we  
suffered in any of the battles fought to win our inde-  
pendence."

The noise is bad enough, but probably there would be  
no great complaint about it if it were safe. It is not the  
racket that counts in the indictment against the Fourth,  
but the terrible pain and suffering and death and sorrow  
and bereavement that flow out of its celebration, in a  
dark and dismal stream whose waters engulf so much of  
the nation's fairest and most promising youth.

## THE HEAT—FORGET IT.

Such an amazing crack of the weather as a hot,  
dry June, with record-breaking temperatures, is so novel  
in Duluth that it is small wonder folks talk about it a  
great deal. But talking about it doesn't help a bit. In  
point of fact, it makes it worse. A group of people dis-  
cussing the heat, comparing records, analyzing the tem-  
perature and explaining to each other how hot they  
are, will feel the heat very much more than another  
group of people thinking and talking about other things.

There are a few things that it is worth while keep-  
ing in mind in hot weather. Don't eat too much—food is  
fuel. Don't drink too much—it doesn't help a bit and  
may be dangerous. Don't over-exert—though nobody  
needs that advice, probably. Don't take cold drinks  
when you are heated—ice water is bad any time, and  
worse when you are hot. Beware of unripe fruit—though  
cool, luscious ripe fruit is wholesome.

When you come in from a walk bathed in perspira-  
tion and all but extinguished by the heat, start the  
cold water tap running and let the water run on your  
wrists, over your pulse. It will cool and refresh you  
about as quickly as anything—much quicker than a long  
gulp of ice water, which may finish what the heat began.  
And don't think about the weather or the heat or the  
temperature. Think about Christmas or Thanksgiving or  
Greenland's icy mountains—but forget the heat.

## SIBLEY, MORALIST.

Joseph C. Sibley, a Republican nominee for congress  
from Pennsylvania and a former congressman, is out  
with a plea for a law making it a crime for a candidate  
to spend money for his nomination or election.

Coming from Sibley, this is highly interesting.  
Do you remember Sibley?

Sibley is the man who used to get letters from John  
D. Archbold of the Standard Oil company; letters in  
which pleasant mention was made of fat checks either  
enclosed or sent by another route. There was a good  
deal of talk about Sibley at that time, but Sibley didn't  
have much to say for himself. Mr. Hearst, you will re-  
member, dug up those famous Archbold letters, and  
aroused the widest interest by making them public. They  
showed how intimate the relationship was between busi-  
ness, as represented by the oil trust, and politics, as  
represented by Mr. Sibley and others. They also showed  
how golden are the bonds that link this infamous part-  
nership.

You would have thought that would be about all  
for Sibley, wouldn't you?

Not so. Sibley wasn't to be repressed so easily. He  
had been in congress as a Democrat, and also as a Re-  
publican. He liked being in congress. How much of his  
liking was due to the pleasant and profitable correspon-  
dence he and Mr. Archbold used to carry on we do  
not know. It is reasonable to suppose that that would  
account for some of his fondness for being in congress.

At any rate, he liked being a congressman, and  
this year he has determined to be one again. So he went  
out after the Republican nomination in a Pennsylvania  
district, and landed it. This was a great surprise to many  
—not so great a surprise to those who knew what Penn-  
sylvania's political condition is. It wasn't so much of a  
surprise to anybody, however, when under the Penn-  
sylvania law requiring publicity of campaign expenditures  
Sibley filed his statement.

His statement of election expenses showed that he  
spent a little over \$40,000 to land that Republican nomi-  
nation. That was about \$4 for every vote cast for him;  
it was about \$60 for every vote of his plurality. But it  
explained how he happened to get nominated after the  
public had read those Archbold letters.

Very likely Mr. Sibley will be elected. He lives in a  
state that seems able to stand almost anything from its  
politicians. He lives in a district that is strongly Re-  
publican, the kind of a Republican district that prob-  
ably would elect Joseph C. Mephistopheles to congress if his  
name got on the Republican ballot. Furthermore, Mr.  
Sibley didn't spend all his money on the nomination. He  
has some left, and no doubt will use it.

In the meantime he is declaring that it isn't pretty  
to let candidates buy their elections, and that there  
ought to be a law making it a crime for a candidate to  
use any money at all.

From Sibley, that's good. From a man who probably  
has done more to commercialize politics and office-  
getting than most others, that's very good indeed.

But what about a law barring from all offices a man  
convicted of taking money from the people's enemies  
and using it to debauch the voters?

When you come in from a walk bathed in perspira-  
tion and all but extinguished by the heat, start the  
cold water tap running and let the water run on your  
wrists, over your pulse. It will cool and refresh you  
about as quickly as anything—much quicker than a long  
gulp of ice water, which may finish what the heat began.  
And don't think about the weather or the heat or the  
temperature. Think about Christmas or Thanksgiving or  
Greenland's icy mountains—but forget the heat.

## SIBLEY, MORALIST.

Joseph C. Sibley, a Republican nominee for congress  
from Pennsylvania and a former congressman, is out  
with a plea for a law making it a crime for a candidate  
to spend money for his nomination or election.

Coming from Sibley, this is highly interesting.  
Do you remember Sibley?

Sibley is the man who used to get letters from John  
D. Archbold of the Standard Oil company; letters in  
which pleasant mention was made of fat checks either  
enclosed or sent by another route. There was a good  
deal of talk about Sibley at that time, but Sibley didn't  
have much to say for himself. Mr. Hearst, you will re-  
member, dug up those famous Archbold letters, and  
aroused the widest interest by making them public. They  
showed how intimate the relationship was between busi-  
ness, as represented by the oil trust, and politics, as  
represented by Mr. Sibley and others. They also showed  
how golden are the bonds that link this infamous part-  
nership.

You would have thought that would be about all  
for Sibley, wouldn't you?

Not so. Sibley wasn't to be repressed so easily. He  
had been in congress as a Democrat, and also as a Re-  
publican. He liked being in congress. How much of his  
liking was due to the pleasant and profitable correspon-  
dence he and Mr. Archbold used to carry on we do  
not know. It is reasonable to suppose that that would  
account for some of his fondness for being in congress.

At any rate, he liked being a congressman, and  
this year he has determined to be one again. So he went  
out after the Republican nomination in a Pennsylvania  
district, and landed it. This was a great surprise to many  
—not so great a surprise to those who knew what Penn-  
sylvania's political condition is. It wasn't so much of a  
surprise to anybody, however, when under the Penn-  
sylvania law requiring publicity of campaign expenditures  
Sibley filed his statement.

His statement of election expenses showed that he  
spent a little over \$40,000 to land that Republican nomi-  
nation. That was about \$4 for every vote cast for him;  
it was about \$60 for every vote of his plurality. But it  
explained how he happened to get nominated after the  
public had read those Archbold letters.

Very likely Mr. Sibley will be elected. He lives in a  
state that seems able to stand almost anything from its  
politicians. He lives in a district that is strongly Re-  
publican, the kind of a Republican district that prob-  
ably would elect Joseph C. Mephistopheles to congress if his  
name got on the Republican ballot. Furthermore, Mr.  
Sibley didn't spend all his money on the nomination. He  
has some left, and no doubt will use it.

In the meantime he is declaring that it isn't pretty  
to let candidates buy their elections, and that there  
ought to be a law making it a crime for a candidate to  
use any money at all.

From Sibley, that's good. From a man who probably  
has done more to commercialize politics and office-  
getting than most others, that's very good indeed.

But what about a law barring from all offices a man  
convicted of taking money from the people's enemies  
and using it to debauch the voters?

THE DULUTH HERALD.

## THE OPEN COURT.

(Readers of The Herald are invited to make free use  
of this column to express their ideas about the topics  
of general interest. Letters should not exceed 200  
words—the shorter the better. They must be written  
on one side of the paper, and they must be signed  
in every case by the name and address of the  
writer, though they need not be published. A  
signed letter is always more effective, however.)

## THE OPEN COURT.

With the glorious Fourth but a few  
days away it might be well to suggest  
that every precaution be taken to  
prevent the celebration becoming se-  
veral days ahead of time and ending  
several days behind time. Both par-  
ents and police should use every means  
in their power to confine the fire works  
and cannon crackers to the one day.

But John Bull isn't either hardhearted or revengeful.  
Whatever feeling he might have about our cutting  
loose from the mother country and setting up business for  
ourselves has been softened long ago, and John really  
is a pretty good friend of ours. So if he thinks about  
it at all his heart must bleed at the reckless folly of a  
method of celebrating a nation's freedom that rolls up  
a ghastly toll of death and disaster than an ordinary war  
could achieve.

Says the New York Times: "Only a robust patriotism  
can prevent the adult American from regretting that his  
country ever achieved its independence, when the cus-  
tomary 'noisy Fourth' is splitting his ears and shattering  
his nerves as he has survived the strain and racket  
of the days we do not celebrate. And that same patriot-  
ism should prevent our inflicting upon ourselves, an-  
nually, a greater loss in killed and wounded than we  
suffered in any of the battles fought to win our inde-  
pendence."

The noise is bad enough, but probably there would be  
no great complaint about it if it were safe. It is not the  
racket that counts in the indictment against the Fourth,  
but the terrible pain and suffering and death and sorrow  
and bereavement that flow out of its celebration, in a  
dark and dismal stream whose waters engulf so much of  
the nation's fairest and most promising youth.

## THE HEAT—FORGET IT.

Such an amazing crack of the weather as a hot,  
dry June, with record-breaking temperatures, is so novel  
in Duluth that it is small wonder folks talk about it a  
great deal. But talking about it doesn't help a bit. In  
point of fact, it makes it worse. A group of people dis-  
cussing the heat, comparing records, analyzing the tem-  
perature and explaining to each other how hot they  
are, will feel the heat very much more than another  
group of people thinking and talking about other things.

There are a few things that it is worth while keep-  
ing in mind in hot weather. Don't eat too much—food is  
fuel. Don't drink too much—it doesn't help a bit and  
may be dangerous. Don't over-exert—though nobody  
needs that advice, probably. Don't take cold drinks  
when you are heated—ice water is bad any time, and  
worse when you are hot. Beware of unripe fruit—though  
cool, luscious ripe fruit is wholesome.

When you come in from a walk bathed in perspira-  
tion and all but extinguished by the heat, start the  
cold water tap running and let the water run on your  
wrists, over your pulse. It will cool and refresh you  
about as quickly as anything—much quicker than a long  
gulp of ice water, which may finish what the heat began.  
And don't think about the weather or the heat or the  
temperature. Think about Christmas or Thanksgiving or  
Greenland's icy mountains—but forget the heat.

## THE FOURTH IN DULUTH

Business Will Be Generally Suspended in Observance of Day.

Thousands Will Visit Outing Places If Fine Weather Continues.

While West Duluth will have the greatest outburst of patriotism in observance of Independence day, Duluth as a whole will observe the holiday by a general suspension of business and if the weather continues fine the Fourth will be the greatest day of the summer for out-of-doors enjoyment.

The Fourth falling on Monday and thus prolonging the week-end will give people an excellent opportunity for getting out into the country and many will take advantage of it. Arrangements are being made for taking care of a big crowd at the Spirit Lake branch of the boat club. Many parties will go to Spirit Lake, Fond du Lac and other outing places Saturday afternoon to remain until Monday evening.

Business will be generally suspended in Duluth Monday. All of the retail stores, wholesale houses, factories, shops, banks, brokerage offices and other business places will be closed all day. The postoffice will observe regular holiday hours.

At West Duluth, the eagle will scream in the good old way. There will be a big military and civic parade in the morning and the program for the day contains features for the amusement of everybody.

If the day is fine thousands will flock to the parks. The Park Point street railway expects to do a rushing business. Both the lake house and the Outing branch of the boat club will attract large crowds, while many members of the organization will drive to the lake lake branch for the day.

Regardless of weather conditions, the theaters will undoubtedly draw big crowds, but if weather conditions are unfavorable for outings, their crowds will be greatly augmented. At the lecture the Fumes Stock company will give the first performance of "Old Heidelberg" Monday afternoon and a performance will also be given in the evening. There will be a new vaudeville bill at the Bijou and the moving picture theaters will draw big crowds.

Duluth and Rochester will play morning and afternoon games at Athletic park, and there are many corner lot games scheduled by the future streets of the city.

Monday being Duluth's last noisy Fourth of July and the dealers in fireworks report that there is a heavy sale. There will be a big display at West Duluth and Duluth Heights in connection with the celebration of the day and they, with displays by individuals, should combine to fill the sky with rockets and stars and other things of fire.

An excellent program for the day has been arranged by the Northern Country club. There will be golf events during the day and in the evening an exceptional display of fireworks will be given. C. N. Ziegler, manager of the sporting goods department of the Kelly's, will have the day for himself and his personal charge of the display and the features in pyrotechnics ever seen in Duluth.

## DIRECTORY OF AMUSEMENTS

WHERE TO GO TONIGHT.

LYCEUM—Forbes stock company in "Merely Mary Ann."

ANTI-KISSING LEAGUE

IS SUPERFLUOUS.

"Believe in the anti-kissing league," asked Miss Evelyn Watson, between gusts of the rehearsal. "Well, I should say not! I never was kissed unless I wanted to."

Miss Watson is this week playing Rosie, the giggling, flirtatious daughter of the landlady, from whom the men run the other way. In the comedy, "Merely Mary Ann," which is the bill for the evening, the Lyceum will have a disarming and almost alarming frankness.

The bill for next week will be "Old Heidelberg," beginning with a special feature of the rehearsal. "Well, I should say not! I never was kissed unless I wanted to."

The bill for next week will be "Old Heidelberg," beginning with a special feature of the rehearsal. "Well, I should say not! I never was kissed unless I wanted to."

The bill for next week will be "Old Heidelberg," beginning with a special feature of the rehearsal. "Well, I should say not! I never was kissed unless I wanted to."

## OFFICIAL MAP OF THE WEATHER

### CLOUDY

The electric fans are whirling, the ice man is breaking, the laundry is doing a roaring business, the barometer is working over time, the sun is shining, the clouds are doing a rushing business and the bay and the Y. C. A. swimming pool are about the most popular places in the city. The weather man has evidently set out to make a record for breaking records. The mercury climbed up a few degrees more yesterday and touched 97 degrees, a new high mark. Tar macadam and asphalt pavements at last ran away and Duluth didn't sweeter—it sizzled. (Gentle whisper—aside). The thermometer touched 104 degrees in the shade at Miles City yesterday. (Another aside). The highest temperature at Buffalo was 70 degrees. In passing, it might be remarked that when the official thermometer on the hill registers 97 degrees, in the shade, it is some warm on Superior street. Today is another scorcher but the weather man holds out a prediction of cooler weather tonight. Duluthians thought a year ago today the highest temperature in public schools for a year returned to Michigan as assistant professor of history and became its dean.

In 1884, after having practiced law for a number of years, he was elected professor of law at Michigan. His success in this department was such that in 1887 he was called to Ithaca, N. Y., where he organized the Cornell law school and became its dean. In 1895 he was recalled to Michigan university as dean of the law department, and during the absence of President Angell in Turkey in 1897 and 1898 Dean Hutchins was acting president of the university.

Candidates in the respective states and in the nation are then to be systematically questioned on these issues and their replies published to the members of the party.

Among the Democrats who have originated this movement are United States Senators Owen of Oklahoma, Newlands of Nevada and Chamberlain of Oregon; former President Adlai E. Stevenson of Illinois; twenty members of congress from various states, Democratic editors and others prominent in the party. George H. Shibley of the District of Columbia is the secretary.

Washington, June 29.—The Democratic Federation of the United States of America has been launched, the central idea of which, according to the official pronouncement, is "a federation of organizations throughout the country, composed of Democrats, that shall stand for the needed improvements in the system of government and other progressive issues."

"One of its purposes will be to select in each state and in the nation by postal vote, only those issues upon which public sentiment is agreed or can readily be brought to an agreement."

But a new one was being installed last night. A quantity of powder was stored on the ship's deck when she was struck.

From a knife, gun, tin can, rusty nail, or any one of a host of other dangerous weapons, Dr. J. C. Phillips' "The Quick Cure" is the surest remedy for all such wounds, as also for Burns, Erysipelas, Eruptions, Eczema, Chapped Hands, Corns or Piles. 25c at all druggists.

## MRS. VON CLAUSSEN BOBS UP ONCE MORE

Trying to Sue Roosevelt, Bacon and Col. Graves of Duluth.

New York, June 29.—A big bundle of papers purporting to be the complaint in a suit for \$1,000,000 damages against Theodore Roosevelt, Robert Bacon, American ambassador to France, Charles Graves of Duluth, American minister to Sweden and his wife is in the county clerk's office awaiting disposition. The bundle was thrown into the office yesterday by Mrs. Ida Von Clausen after the clerk's refusal to file the papers, because of irregularities.

The attempted suit is an outgrowth of the refusal of Minister Graves to present Mrs. Von Clausen at the court of the late King Oscar of Sweden in 1907. The complaint begins:

"I hereby make formal demand of the supreme court of the United States to procure me an honest lawyer to protect me in my rights. If the United States of America has laws capable of protecting me, if not, then the legislature must be appealed to."

So far, Mrs. Von Clausen says, she has been unable to find such a lawyer. The complaint continues:

"The gross insult and slander I received in Sweden, of which the world has cognizance, is laid directly to the foregoing conspirators."

Mrs. Von Clausen has been conspicuously in the newspapers ever since her return from Sweden. She says King Oscar gave her his photograph and invited her to visit him.

Mark the wonderful progress of the age. Air flights on heavy machines, telegrams without wires, terrible war inventions to kill men and women, der of wonders—Dr. King's New Discovery—to save life when threatened by coughs, colds, croup, asthma, croup, bronchitis, hemorrhages, hay fever, and all other ailments of the throat. For all bronchial affections it has no equal. It relieves instantly. Its the surest cure. James M. Black of Asheville, N. C., R. R. No. 4, writes: "I cured him of chronic cough after all other remedies failed. 50c and \$1.00. A trial bottle free. Guaranteed by all druggists."

**THIRTY-THREE IN AIRSHIP IN STORM**

Zeppelin's Passengers Have Sensational Experience in Big Flyer.

Dusseldorf, Germany, June 29.—Count Zeppelin's passenger airship Deutschland, the highest developed of all the famous aerostats, was blown off the Teutoburg forest, pierced with pine trees, a mass of delated silk and twisted aluminum. The thirty-three persons aboard, including Count Zeppelin, his wife, and other passengers, were blown off the airship, escaped uninjured, descending a rope ladder from the wreck on the pine tops. Count Zeppelin, the inventor of the airship, was blown off the airship, escaped uninjured, descending a rope ladder from the wreck on the pine tops.

It was dangerous to attempt a landing in an open field because of the storm, as the metal was likely to pound to pieces. In the high wind one of the ropes used to hold the airship aloft was blown away, and the airship drifted, swaying in the violent gusts and sometimes leaning to an angle of 45 deg., while the passengers were at work repairing the disabled motor.

When this was done, all four screws were driven at their full power, under which, in normal conditions, the airship was capable of attaining a speed of forty miles an hour. Count Zeppelin was unable to keep his course, and the great craft was swung about at the mercy of the wind. Count Zeppelin did not dare to turn the ship around for fear of being blown into the sea. In the end, the airship, which was blowing fifty miles an hour, was blown off the airship, escaped uninjured, descending a rope ladder from the wreck on the pine tops.

## MAY IRWIN HAS CLOSED HER INN

Town Goes Dry Where Actress Dispenses Liquor in Summer.

New York, June 29.—May Irwin, innkeeper, is no more. Prohibition has undetermined Miss Irwin's ambition to operate an inn among the Thousand Islands. After a single season of conducting an inn on Irwin Island in the St. Lawrence for the transient trade, the majestic St. Lawrence runs dry—at least, so far as Miss Irwin's guests are concerned.

Miss Irwin is one of the Thousand Islands' oldest inhabitants. She was one of the first New Yorkers to recognize the advantages of the St. Lawrence between Cape Vincent and Alexandria bay for a summer home. Long ago she bought a small island opposite the village of Clayton and built a modest little shack which she and Cecilia Lott, used as a background for their professional photographs.

Subsequently Miss Irwin erected a spacious cottage of granite and hardwood with all modern improvements. A year ago she decided to make her summer vacation pay dividends and she opened her cottage to the public under the name of May Irwin's Inn. The inn was a comfortable and inviting place for the St. Lawrence fishermen with money and a thirst. Sometimes under the soothing influence of beverages as mixed by a most capable butler the fishermen forgot to fish, but sat idly on the spacious veranda all day long.

Alas! All this is changed. The village of Clayton last fall fell a victim to the Prohibition wave that swept over certain parts of the country and Miss Irwin's inn is within the village limits. Of course, there remained Miss Irwin's famous cooking to soothe the tourist and the transient, but the burton condescendence decided that alone would not do. Therefore, she has closed the inn to the public. She is already in her summer home and sends word that the bass are biting more greedily than Hackensack messengers. But there is a padlock on the sideboard and the door leading to the wine cellar is bolted. The residents of Irwin Island desire a rocky or a cocktail they must cross to the Canadian side.

## BAYHA & CO. TAKES THE LEAD

First of Retail Stores to Announce Saturday Afternoon Closing.

There has been much talk lately both in the papers and out, concerning the closing of retail stores at noon on Saturday afternoon during the months of July and August. Announcements have appeared in the papers at various times relative to meetings that have been held by the business men of this city, as but few of the retailers were notified of any such meeting. It was simply a meeting of business directly opposed to the Saturday afternoon closing of retail stores. The papers were sent with the intention of leading the retail in general to believe that it was a meeting of all the interests and that a movement is impossible in this city.

It remained for Bayha & Co. to announce and announce their intention of closing Saturday afternoon. They did through the columns of the News Tribune of June 28 and the Evening Herald of the same date. We took this step without knowledge of the meeting to be held entirely independent of the intentions of any other retailer. Bayha & Co. are not a line of business or any other line.

One other merchant in our line signifies his intention of closing, and notifies his customers to the effect in the Evening Herald of the same date. The five stores that have announced their intention of closing Saturday afternoon during the months of July and August, are: Bayha & Co., Lomax & Co., and the other three.

**LOMAX TO LEAVE THE UNION PACIFIC ROAD.**

Omaha, Neb., June 28.—Last night's statement from San Francisco that E. L. Lomax, for the last twenty-five years general manager of the Western Pacific, had arranged to leave the road, was confirmed today by the traffic manager of the Western Pacific with offices at San Francisco, Lomax, now in San Francisco, has been informed that the resignation of his office here.

**STOLEN MONEY FOUND IN WOMAN'S MATTRESS.**

New York, June 29.—A beautiful young Rumanian woman who gives the name of Maria is said to have found a large sum of money in the mattress of her room in Brooklyn yesterday. The money was found in the mattress of her room in Brooklyn yesterday. The money was found in the mattress of her room in Brooklyn yesterday.

**ROOSEVELT COMING TO ST. PAUL SEPT. 6.**

St. Paul, Minn., June 29.—J. H. Beck, chairman of the local board of managers of the National Conservation Association, has received a telegram from Thomas Ship, of Washington, secretary of the National Conservation Association, stating that the dates of the National Conservation congress had been fixed for Sept. 6, 7, and 8 and that Mr. Roosevelt would be in attendance Sept. 6.

**BULLETS FLY WILD IN CLEVELAND STREETS.**

Cleveland, Ohio, June 29.—One man is dead, one dying and seven other persons are in hospitals as a result of a shooting between two men in a crowded street last night. Frank Viena and Antonio Mercurio, quarreled over the alleged ill-treatment by Mercurio of his wife, Viena's sister.

Two men were standing at Twenty-third street and Broadway when the shooting started. A number of persons rushed forward to separate the two men. The shooting could be stopped Viena was dead. Mercurio fatally injured and seven bullets had found bullets in as many bystanders.

**LAKE SUPERIOR COMPANY IS FORMED IN NEW YORK.**

Albany, N. Y., June 29.—The Lake Superior Iron & Chemical company of New York was incorporated yesterday with a capital of \$1,250,000. It takes over the property and business of the Lake Superior Iron & Chemical company, a Michigan corporation. The directors are all New Yorkers.

## MAY IRWIN HAS CLOSED HER INN

Town Goes Dry Where Actress Dispenses Liquor in Summer.

New York, June 29.—May Irwin, innkeeper, is no more. Prohibition has undetermined Miss Irwin's ambition to operate an inn among the Thousand Islands. ## AND THE CLERK IS CHASING HIM YET

The prosperous looking commercial traveler approached the room clerk's desk and asked for a room. The clerk, looking at him with a cold stare, said: "You are a friend of mine, can't you?"

"Well, perhaps I haven't any business to intrude this matter upon your attention. I feel a great deal of embarrassment about it."

"Indeed, I assure I will be glad to hear of any way in which I can be of service to you," replied the clerk, with a friendly smile.

"Oh, there's nothing to do, I guess. I wouldn't hesitate a bit if I considered it in that way." The traveling man was eager in his assurance, this time.

"Well, then what is it?" asked the thoroughly puzzled clerk.

"This you must take any offense? I don't want to risk displeasing you. I assure you it is all about a guest's room friendliness."

"No, no, I won't take offense. But what in the world is it all about?"

"Well, if you'll pardon me in advance, I have a question to ask. I'm sure you wouldn't be impatient, anyway. Your inquiry is accepted. Now let's hear what I've pardoned you for."

"Please, over here," whispered the guest. "Close. There. Now, you won't get sore about it?"

"No," whispered the clerk, wearily but game to the last.

Time at last came the question. Forming a precautionary mekaphone with his hands, the traveling man glanced apprehensively around, then whispered:

"It is not enough for you?"

"Without an instant of delay, he grabbed his grip and started for the avenue at top speed to catch a train.

**Calcium Calibrate.**

Calcium calibrate has found a new use in gas pressure sprayers, used for destroying all kinds of pests which attack fruit and shade trees, and for such purposes as spraying turpentine and zinc-white on the inside of boiler feed tanks, for spraying disinfectants, and for painting and waterproofing.

**WEEKLY CROP BULLETIN**

Washington, June 29.—Good crop-growing weather prevailed during the last week, according to the national weekly weather bulletin of the department of agriculture. It says:

"A general summary of the weather for the last week shows the continuation of warm and dry weather throughout the corn and winter wheat growing states. The rainfall, though light, was generally sufficient for present needs, except in scattered localities, where the warm weather was very beneficial to growing vegetation. One of the best preservers of health is Golden Grain Bait beer. Its purity, wholesomeness and invigorating qualities makes it an ideal table beverage of your nearest dealer or be supplied by Duluth branch Minneapolis Brewing company."

## NEW OATH FOR KING.

Asquith Introduces Bill Changing Coronation Form.

London, June 29.—Premier Asquith has introduced in the house of commons the promised bill altering the form of the religious declaration required of the sovereign upon his coronation. In the proposed text the doctrine of the Roman Catholic church is not singled out for repudiation, but it is simply affirmed that the sovereign is a faithful Protestant. The paragraph is thus made to read:

"I do solemnly and sincerely, in the presence of God, profess, testify and declare that I am a faithful member of the Protestant church as by law established in England, and I shall, according to the true intent of the enactments which secured Protestant succession to the throne of my realm, uphold and maintain the said enactments to the best of my powers and according to law."

## FIRECRACKER BLINDS MEDFORD, WIS., YOUTH.

Medford, Wis., June 28.—While practicing shooting firecrackers for the Fourth of July, Harold Shepard was severely injured when one exploded in his face. He will lose the sight of both eyes.

## Dies From Injuries.

Nelmi Kovisto, the 5-month-old child of John Kovisto, who was injured in the explosion at 182 St. Croix avenue Sunday morning, died this morning at St. Mary's hospital from its injuries.

## S.S.S. A GREAT TONIC AND BLOOD PURIFIER

There is one reason above all others which makes S. S. S. the greatest of all tonics, and that is because it is the greatest of all blood purifiers. Any system which needs a tonic, needs a blood purifier, for it is impure, weak blood which causes the weakened, run-down condition of the body. S. S. S. is Nature's Tonic and Blood Purifier. It is made entirely of roots, herbs and barks, which possess not only strengthening properties, but at the same time this combination of botanical juices and extracts is the most potent of all medicines for removing every impurity, poison or taint from the blood circulation. S. S. S. improves the appetite and digestion, corrects stomach disturbances and steadily and surely tones and builds the system up to perfect health. It adds to the blood the rich, healthful properties it needs, and in every way enables the system to stand the strain of the long, hot Summer months. S. S. S. cures Rheumatism, Catarrh, Sores and Ulcers, Scrofula, Malaria, Skin Diseases, Contagious Blood Poison, and all other diseases or disorders due to impure or poisoned blood. Book and all other medical advice free to all who write.

## NEWS OF THE NORTHWEST

### CONVICTED ON UNTRUTH

North Dakotan Sent to Penitentiary on Lie Uttered on Scaffold.

Is Given His Freedom After Serving Seven Years of Life Sentence.

Minot, N. D., June 29.—(Special to The Herald.)—Convicted of murder by evidence given by a man awaiting to be hanged for a similar crime and sentenced to life imprisonment, only to be pardoned after seven years, is a part of the experience that Car Hanson, now residing on a farm near Blaisdell, Ward county, went through.

Hanson's pardon was gained largely through the efforts of friends, who succeeded in securing signatures to his petition of eleven members of the jury that convicted him, and of Judge Cowan, before whom he was tried.

The fact that he was always a model prisoner during the seven years of his confinement at the state prison also had its effect upon the state board and was partly responsible for the action taken.

Murder Disclosed by Another.

The murder of which Hanson was convicted was one that was not disclosed until after William Ross had been hanged for the murder of Thomas Welch, a Willow City, N. D., farmer.

It was then that Ross, probably in the hopes of securing life sentence rather than hanging, disclosed the murder of that of Napoleon Le May, at a point near Blaisdell, this county, which he claimed had occurred early in October, 1901.

Investigation followed and, true to the claims made by Ross, the body of the man was found in the town of Blaisdell, near the scene of the murder. Hanson was arrested, tried and convicted.

Probably the most dramatic incident of the entire affair occurred on the scaffold in the Bottineau county jail when, during the hour just preceding his death he had been in the company of Father Turcotte, the Catholic priest who was then local pastor.

During the hour just preceding his death he had been in the company of Father Turcotte, the Catholic priest who was then local pastor.

### CLOQUET WILL HAVE BIG TIME

Despite Possibility of Shut Down, Eagle Will Scream in Slabtown.

Cloquet, Minn., June 29.—(Special to The Herald.)—The committee in charge of the local celebration of the Fourth is at work on the program, which, in spite of the grave conditions at the mills where a shutdown may come any day, is a good deal of discussion regarding the selling of fireworks, and the sales may be restricted to a large extent, and perhaps forbidden if rain does not come in the meantime. The committee has determined that Cloquet shall stand out on former occasions this year.

At the Alex. Patterson farm another barn was destroyed but all the horses escaped alive.

Six Horses Burned.

Rolla, N. D., June 29.—(Special to The Herald.)—Six horses were cremated in a fire which destroyed the large barn on the George G. Specman farm near this place. In addition to this a large quantity of grain was destroyed, as was a large amount of harness, etc. The fire was started by Mr. Specman's son Robert, and the had a hard time getting out of the building without being burned to death himself.

Little Girl Killed.

Struck by Lightning While Cutting Cake at Home.

Little Falls, Minn., June 29.—While eating supper at her home in Ripley town Monday evening, Mary Jane, 10-year-old daughter of Mr. Heron, was struck by lightning Monday evening and killed. The lightning struck the cake which she was cutting and instantly killed her. The other inmates of the house were stunned by the force of the shock.

ANOKA BOY DROWNED.

Body of Missing Arthur McGrath Taken From Mississippi.

Little Falls, Minn., June 29.—(Special to The Herald.)—Doubts about Arthur McGrath's disappearance were ended today when his body was recovered from the bed of the Mississippi river here. McGrath was a young man who was missing since he was supposed to have perished while bathing.

MADE SURE OF IT.

Homesteader Near Blackduck Fires Cabin and Shoots Self.

Blackduck, Minn., June 29.—Charles Miller, living in a cabin alone on his homestead near here, apparently made a sure thing of his self-destruction. He first set a cabin then shot himself, only his burned bones being found afterward. The cabin was destroyed and the body was found in the ruins.

COYOTE SHOWED FIGHT.

Turned Upon Attacking Dogs and Made Fur Fly.

Minot, N. D., June 29.—(Special to The Herald.)—A coyote was seen in a novel fight a short distance from this city when four dogs set upon a coyote and fought with it for some time. The coyote was finally killed and its body was found in the ruins.

FIRECRACKER FIEND IS GIVEN STIFF FINE.

Marquette, Mich., June 29.—(Special to The Herald.)—A man who had been firing fireworks in a group of children in Marquette, Mich., was fined \$100 for the same. The man was fined \$100 for the same. The man was fined \$100 for the same.

YOUTHFUL ELKS' MASCOT

Will Lead Copper Country Herd in Big Detroit Parade.

Hancock, Mich., June 29.—When the Copper country contingent of the Benevolent and Protective Order of Elks strides down Main street at the national parade in Detroit, it will lead the parade. The parade will be led by the Copper country contingent of the Benevolent and Protective Order of Elks.

### WIND LEVELS BARN; FOUR HORSES LOST

Portal, N. D., June 29.—(Special to The Herald.)—By a terrific wind which swept over this section the big barn on the T. B. Waddington farm was demolished and four horses were killed. The entire string of horses, numbering about twenty, was caught under the debris, and the big force of workmen put on the job found that four of them had been killed.

At the Alex. Patterson farm another barn was destroyed but all the horses escaped alive.

Six Horses Burned.

Rolla, N. D., June 29.—(Special to The Herald.)—Six horses were cremated in a fire which destroyed the large barn on the George G. Specman farm near this place. In addition to this a large quantity of grain was destroyed, as was a large amount of harness, etc. The fire was started by Mr. Specman's son Robert, and the had a hard time getting out of the building without being burned to death himself.

## ETIQUET OF VISITING CARDS

By MARGARET E. SANGSTER

# GREAT BANKRUPT SALE

Entire \$80,000 Stock of the Appleton Consignment Co., Bankrupt, to be Disposed of at once for the Benefit of the Creditors

THE EASTERN SALVAGE CO. WILL DISPOSE OF THIS STOCK AT  
**222-24 WEST FIRST STREET**  
FORMERLY DULUTH MUSIC CO.'S STORE

HERE ARE MANY \$ \$ \$ TO BE SAVED IN THE SENSATIONAL SALE OF THE BANKRUPT STOCK. GOODS TO BE SACRIFICED AT 33 CENTS ON THE DOLLAR AND LESS.

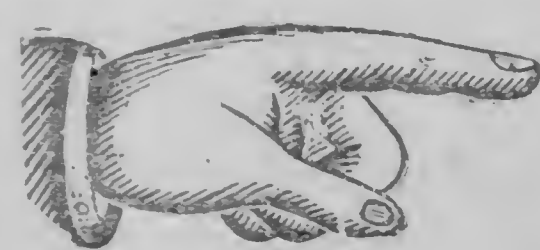

We were fortunate enough to secure this stock for almost nothing and, therefore are willing to share our profits with the public of Duluth and vicinity. Now it is up to you to take advantage of the great opportunity that awaits you. Remember that this sale can last but a very short while, as our time to remain in this building is limited; for this reason we are going to reduce the prices on these goods to almost nothing. Cost or value of this great stock is of no consideration to us—we simply must get rid of the goods, and the slaughtering of prices is our only known method of accomplishing our object in haste.

**NEVER BEFORE, NEVER AGAIN WILL YOU GET SUCH AN OPPORTUNITY!**

A Golden Money-Saving Event That Comes But Once in a Lifetime Right Here Before you Now.

Just think of it—this is one of the largest Dry Goods stocks ever placed on sale in the city of Duluth. It's an \$80,000 stock, and consists of the finest of high-grade Dress Goods, Silks, Wash Goods, Prints, Calicoes, Ginghams, Velvets, Sheetings, Table Linens, Toweling, Oil Cloths, Rugs, Dress Trimmings, Laces, Embroideries, Veilings, Ribbons, Ladies' Suits, Coats, Skirts, Muslin Underwear, Waists, Children's Coats and Underwear, Ladies' and Children's Shoes, Umbrellas and Parasols, and a fine and complete line of Men's Furnishings, Clothing, Shoes, Hats, Caps, etc.

Kindly bear in mind that this is not a shelf-worn stock, but one of the cleanest stocks in the country and was bought for this season's trade—but we are compelled to rid ourselves of it now. Another pleasant feature of this sale is that it is a bona fide one, and not one of those scheming sales which are so numerous throughout the country "roping the people in" to part with their hard-earned cash. We positively do as we advertise or cheerfully refund your money. This entire stock of reliable merchandise will be wiped out at

## 33 CENTS ON THE DOLLAR

Can you afford to let this wonderful money-saving event go by without taking advantage of it? No—at least not those who know the value of a dollar and are looking for economy. A better investment than this could not be wished for—one dollar of your money here will positively go as far as three anywhere else. It is not necessary for you to take our word for this, but come to our store Thursday and convince yourself. We are positive that you will be amply repaid by a visit to our store during this sale. Our advertisements are as truthful as our goods, and we will gladly refund any car fare spent by any one who, by any chance, should be dissatisfied with our goods.

We regret that we are unable to quote all the prices we have marked on this stock, but lack of space in this advertisement forces us to omit the bulk of them—however, we will mention a few for the benefit of early buyers and to give an idea of what may be expected as to prices on the rest of the goods—everything is cut in a similar manner.

"The early bird catches the worm" is the old saying, and this is true of our sale—the early buyers get the best pick—therefore it will be to your advantage to be on hand as early as possible. Come with the crowd of "early birds."

### Most Room Renters are getting located for summer. And they are all looking in The Herald for the room they want

Is your vacant room advertised in the "Rooms for Rent" column of The Herald today? It should be if you want that room rented.

## FIRE NEAR CLOQUET IS SWEEPING INDIAN RESERVATION LAND

Whole Eastern Section Is Reported to Be Ablaze.

Settlers Wait for Men From Town to Save Homes and Property.

Rain Is Only Thing That Can Stop the Flames in the Woods.

Cloquet, Minn., June 30.—(Special to The Herald.)—Men coming in from the Fond du Lac reservation report all the eastern section of the reservation burning. Forest fires, which it was hoped would stop at Stony Brook, jumped across in the tree tops and have got beyond control. All that has been done is to save the settlers' homes by backfiring. It is useless to attempt anything else.

Those who are out where the fires are burning witness many curious incidents, and some feel that in many instances the settlers could do more to help themselves. Mr. Bradbury, assistant superintendent of logging on the ceded lands of the reservation, had a call for help yesterday from the extreme northern part of the reservation. Five men came in to tell him they needed help, when one could have carried the message.

Settlers' Messengers Back. Questioning developed the fact that they had done absolutely nothing to help themselves. He sent them back and told them to get busy. There are (Continued on page 12, first column.)

## CONVICTS KIDNAP YOUNG OREGON BOY

Escape From Penitentiary and Steal Wagon and Farmer's Son.

Salem, Ore., June 30.—Two escaped penitentiary convicts at Buena Vista, a farm near a farm hand, nearly to death and kidnaped his young son yesterday. Starr and the boy were driving into Buena Vista when the convicts, who were carrying the boy with them, took possession of the wagon and taking the boy with them, drove south. They have not been caught.

The convicts are Harry Brennan, sentenced to two years imprisonment, and John Wornsdorff, serving one and a half years. They were released from the institution last Saturday when they were sent to a hayfield.

## CLAIM THAT THEY HAVE WENDLING

Dayton, Ohio, Police Think Prisoner Is Kellner Girl's Slayer.

Dayton, Ohio, June 30.—The police here believe they have Joseph Wendling, who is wanted for the killing of Alma Kellner in Louisville, Ky. The man was arrested early today. He claims to be a convict from the penitentiary at Dayton, Ohio, but the police say that the description of Wendling, particularly in regard to certain marks on his arms, fit the prisoner. The man has given only a vague account of himself.

## KOREA SOON TO BE ANNEXED BY JAPS

All Indications Point to Early Announcement From Tokio.

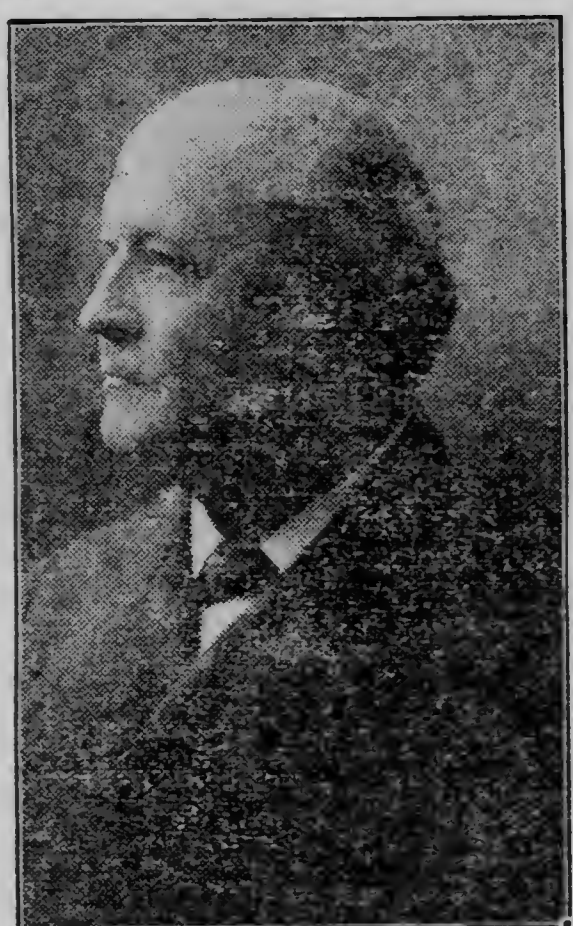

Tokio, June 30.—There is every reason to believe that an announcement of the annexation of Korea by Japan is imminent.

In accordance with the convention recently made between Korea and Japan, the Korean emperor has issued an edict delegating to the Japanese government the police administration of the country. This is the first step, and the final step will be taken when Korea is practically under guard. The garrisons are being steadily strengthened.

The mass of Koreans accept the reports of the approaching annexation with indifference, but a decided spirit of unrest and activity among the anti-Japanese element necessitates precautions prior to the forthcoming announcement.

Lieut. Gen. Viscount Teruuchi, the Japanese resident general of Korea, will leave for Seoul, the Korean capital, on July 15, to confer with Emperor Yi-Syok of Korea, who is reported to be in a convalescent state of mind in view of the ample provision which has been made of him, his immediate family and other members of the royalty, under the annexation arrangements.

## WILL MAKE EAGLE SCREAM IN PARIS

REV. ROBERT FORBES, D. D.

A former Duluthian will deliver the Fourth of July oration to the American colony in Paris. Rev. Dr. Forbes, D. D., formerly of Duluth and now secretary of the board of church extension of the Methodist Episcopal church, is now in Paris, and he has been invited by the American visitors and residents there to deliver the Fourth of July oration at a celebration that is being planned for Independence day in Paris, and every year the Fourth is celebrated in a fitting manner with fireworks and speeches.

Mrs. Forbes is also in Paris with her husband.

## WILD DAY IN WALL STREET

Flood of Selling Followed by Quiet and Second Break.

Feverish Rebound Succeeded By Demoralization of Market.

New York, June 30.—The stock market was flooded with selling orders at the opening today as an aftermath of yesterday's violent declines. The opening downward plunge after establishing new low levels for the year was followed by a quick and violent rebound, which made up for the opening losses in some cases. Excited and irregular fluctuations followed, but the excitement quieted down to an extent before the first hour was over and a spasm of selling followed. At 11 o'clock another spasm of selling followed, and the market and prices were convulsed in new directions. Northern Pacific and Atchafalpa were carried down 4 points. (Continued on page 12, third column.)

## DRIVEN TO SUICIDE BY STAIR CARPET

Montana Deputy Sheriff Kills Himself When He Cannot Lay It.

Missoula, Mont., June 30.—After trying unsuccessfully to lay a stair carpet, Deputy Sheriff Charles A. Farrell told his wife he did not appear to be able to do anything and that he felt like blowing out his brains. He went to the roof of his home, where he was shot and killed himself through the head. His wife had not taken his words seriously and was fearfully shocked when she rushed to the room and found him dead. It is believed the intense heat upset his mind.

## MAKES FIREWORKS AND CANNOT LIVE

New Jersey Man Loses Both Eyes and Is Otherwise Injured.

Bloomfield, N. J., June 30.—Frank Christian, 30 years old, tried to manufacture home-made fireworks in a shed in the rear of his home here yesterday. In an explosion which resulted, both his eyes were blown out and he was otherwise horribly injured. He will die.

## TAFT HOST TO TEDDY

First Meeting of President and Ex-President Since March 1909.

Conference Is Regarded as Extremely Important Politically.

Beverly, Mass., June 30.—President Taft and former President Roosevelt met this afternoon at the summer camp on Burgess point, in what is regarded by many as the most important political conference in years. The two had not met since inauguration day, March 4, 1909.

Col. Roosevelt reached the Taft cottage in the middle of the afternoon. Every effort was made to surround the meeting of the president and the former occupant of the White House with as much privacy as possible. Orders were issued excluding all visitors from the grounds surrounding the Taft house.

Guest of Senator Lodge.

Nahant, Mass., June 30.—Following twelve hours of absolute seclusion from the public, Col. Theodore Roosevelt arose early this morning and took a brisk walk about the Nahant estate of Senator Lodge, his host. The state, which is beautifully located on a secluded point extending into the ocean, is well hidden. A luxuriant forest growth conceals the place most effectively from observation on the land side. The entrance to the grounds was closed by a big swinging gate, behind which stood a uniformed policeman.

## KING GEORGE GETS AMERICAN MEDALS

Receives Stewart L. Woodford and Is Given Memorial Pieces.

London, June 30.—King George gave an audience today to Gen. Stewart L. Woodford of New York, president of the Hudson-Fulton celebration committee. An official gold medal in commemoration of the 20th anniversary of the discovery of the Hudson river by Henry Hudson and the inauguration of the successful navigation upon that stream by Robert Fulton.

NEBRASKA TOWN HAS \$200,000 FIRE LOSS.

St. Joseph, Mo., June 30.—A special to the News-Press says the town of Wymore, Neb., was almost wiped out by fire early this morning. A special train carried firemen from Beatrice, Neb., to assist in putting down the conflagration. The loss exceeds \$200,000. No casualties are reported.

## HOW TO KEEP COOL

Some vacation hints for our readers by Prof. F. C. Baker, I. P. (Irresponsible Person).

\*\*\*\*\*

WHY DON'T YOU TAKE A VACATION? CAN'T YOU HOW TO SPEND YOUR TIME WHERE IT IS COOL? AFTER A HARD DAY'S WORK, GIVE YOURSELF A NICE TRIP TO THE COUNTRY EVERY DAY INSTEAD OF GOING TO THE OFFICE. YOU COULD RUN THE AUTO AND THUS SAVE PAYING FOR A DRIVER. ANY GOOD FIRST CLASS MAKE WILL SERVE THE PURPOSE. TAKE A LITTLE LIQUID REFRESHMENT.

\*\*\*\*\*

ANOTHER NICE WAY TO SPEND THE SUMMER IS TO TAKE A TRIP TO THE COUNTRY EVERY DAY INSTEAD OF GOING TO THE OFFICE. YOU COULD RUN THE AUTO AND THUS SAVE PAYING FOR A DRIVER. ANY GOOD FIRST CLASS MAKE WILL SERVE THE PURPOSE. TAKE A LITTLE LIQUID REFRESHMENT.

\*\*\*\*\*

A NICE WAY TO KEEP COOL IS TO BUY ONE OF COUNT ZEPPELIN'S AIRSHIPS AND SAIL UP WHERE THE AIR IS COOL OR MAKE A TRIP WITH DR. COOL—A GOOD AIRSHIP WILL NOT COST OVER 2447-2.

## CLAIM M'CUMBER AND GRONNA ARE NAMED TO RUN FOR SENATE

North Dakota Factions Tell Claims as to Primary Results.

Johnson Probably Named for Governor—State Ticket Split.

Fargo N. D., June 30.—(Special to The Herald.)—Basing their claims on results thus far obtained from the primary election held yesterday in this state, stalwart leaders announce that there is certainty of the nomination of Senator McCumber for the long term senatorship; Hanna for congress; Johnson for governor; Henry for secretary of state; Olson for state treasurer; Gilbreath for commissioner of agriculture; Plitt for state auditor and E. J. Taylor for superintendent of public instruction. They claim a fighting show for Englund for the short senatorial term and Blaisdell for the second place in congress.

Three insurgents—Burdick for lieutenant governor; Miller for attorney general, and W. C. Taylor for insurance commissioner—are running strong. The secretary of state is somewhat in doubt, as House is pulling quite a heavy vote from Henry, which enables Norton, insurgent, to keep well up.

Clashes of Insurgents. The insurgents claim Gronna for the short senatorial term and Heigsen for congress with an even split on state offices. Most of them admit the defeat of Buchanan for the governorship.

Anchor carried Steele county. The third man in the gubernatorial race, A. Light vote is reported from all sections. (Continued on page 12, third column.)

## BRING BOY BACK; TAKE HIS BROTHER

New Jersey Kidnapers Exchange Captive for Younger Lad.

Passaic, N. J., June 30.—A strange case of kidnaping, in which one child was retained at the same time another was stolen, came to light here today, when the police announced that Mrs. Mary Kunisky has reported that her son, Volick, 4 years old, had been missing since Saturday.

Mrs. Kunisky has two sons. Two years ago Joseph, then about 4 years old, was stolen from his mother. Saturday a strange woman called on her and told her that her kidnaped son had been brought to Passaic and left at a house nearby. The stranger offered to remain at Mrs. Kunisky's home while she went to the kidnaped boy. The mother found the missing boy, but when she got back home the younger child and the woman were gone.

## EX-CONFEDERATE DIES A U. S. SENATOR

JOHN W. DANIEL,  
Late United States Senator from Virginia.

Washington, June 30.—(Special to The Herald.)—The body of John W. Daniel, ex-Confederate and late United States Senator from Virginia, died at 10 o'clock today at his home in Washington, D. C. He was 78 years old. He was a member of the Virginia House of Delegates for 12 years, and served in the Confederate army during the Civil War. He was a member of the United States Senate from 1891 to 1897. He was a member of the Virginia Historical Society and the American Historical Association.

## FIGHT FIRE ALL NIGHT

### Brush Fires Threaten the Summer Homes Along the River.

After fighting fire all night, to save their summer homes at Fond du Lac from destruction by brush fires, which are ravaging the river front, eight West Duluth men returned to their homes this morning, worn and haggard. In the party were: Atte Swanson, Jean Bouchard, Hugo and Arthur Jacoby, Henry Collgraf, Jack Higgins, Thomas Shannon and Jack Shannon.

All day yesterday and last evening fires seriously threatened to destroy the cottages owned by A. Swanson, J. Bouchard and the Jacoby brothers. The party of fire fighters was made up in West Duluth last evening, leaving for Fond du Lac about 6:45 o'clock. The party returned this morning shortly before 7 o'clock.

Following the burning of the Crosby cottage Saturday afternoon, the adjacent camp, owned by Sid McClellan and Al. Peterson of Superior was destroyed late Tuesday evening. Both of the cottages are close proximity to the summer home of Ed Robertson of this city, who with his wife, has been fighting fire for several days to save his property.

It is also reported that yesterday fire consumed two cottages just above the Little Pigeon camp. The owners were not located. The situation is very serious, and unless rain comes soon it is probable that most of the summer homes along the Wisconsin Grand where a brush fire had gained considerable headway.

Spontaneous combustion is said to be the origin of a blaze which broke out this morning in a barn at 325 North Fifty-ninth avenue west this morning. Some one had piled up and allowed to remain there. Only the top of the barn was burned before the blaze was extinguished.

### HOT WEATHER CAUSES INCREASE IN ARRESTS.

Is the increase in temperature responsible for a large number of arrests in the West Duluth police station? During the past thirty days there have been thirty-three arrests, an unusual number, although it does not break all former records.

Fourteen were taken in town by the police on a charge of drunkenness; five for assault, three for fighting in the street; two for trespass, and one on each of the following charges: Insane, carrying concealed weapons, assault, larceny, second degree, begging on the street and abusive language.

The police have also been kept very busy taking care of family troubles this month.

### SHOOT WOLF WITHIN THE CITY LIMITS.

Capt. J. W. Mann, a former postmaster in the Eighth ward residing at 124 South Fifty-ninth avenue west, shot a wolf in his yard, a half mile east of Ironton yesterday. He received the customary bounty of \$25 at the county clerk's office.

The animal, it is thought, had been driven into the city by brush fires which are burning beyond the hills at West Duluth. Capt. Mann had been visiting with friends at Ironton and was returning to his home in West Duluth at the time.

### Boy Will Recover.

The 10-year-old son of James Ryan, 404 Grand avenue east, who was stricken with the heat three days ago and whose condition was reported very serious last evening, will recover. This morning he took a turn for the better.

### West Duluth Briefs.

Rev. and Mrs. J. G. Leitch, who were married at Philadelphia a few weeks ago, will return to Duluth about July 1. Rev. Mr. Leitch is pastor of the Westminster Presbyterian church.

## NEWS AND VIEWS OF POLITICS AND POLITICIANS

The assertion made in this column yesterday, that the statement made by John Lind relating to the Democratic nomination for governor does not alter the situation, seems to be generally concurred in.

**Lind Picked To Be Democratic Nominee.** The political writer of the St. Paul Pioneer Press declares that "John Lind will be the nominee of the Democratic state convention for governor," and then proceeds to say that this is the consensus of opinion among Democrats.

None of Lind's statements have been as strong as the final statement made by Governor Johnson before the convention which nominated him for a third term," says the Pioneer Press. "But delegation after delegation insisted that Johnson was the only man. Finally Johnson gave in."

"Lind, like every other man in politics, has ambition; his ambition is to go to the senate. But if he refuses to stand for governor when the party needs him the party will feel like helping him to be senator. Besides, it might be easier to elect a senator than a governor. But if he is not elected, neither would it be likely that Lind or any other man would decline the governorship, even if he has had another term. To run and be elected by a majority would be additional honor, and the Democrats would be proud of him."

Only in case the unexpected should happen, that both Lind and Hammond should absolutely decline, is there any likelihood of Judge C. W. Stanton being named to head the ticket. Neither is it likely that he will be placed on the ticket for some other office. Stanton holds office as judge by virtue of appointment, and why have to run again this summer to retain the place. The prospect of a six-year term as district judge would seem to be too tempting to permit his running for a secondary place on the ticket.

The probability of Fred W. Johnson of New Canaan being nominated for lieutenant governor is growing. Not long ago he was mentioned as a candidate for governor, but the Democrats hope to elect both him and Lind, and then if they succeed in making him lieutenant governor, the state government would not turn the control of the state government over to the opposition party, as would happen if a Republican lieutenant governor should become governor.

"Mr. McCleary has just as much chance of defeating Mr. Hammond in the Second district, even if he should be nominated, as he has of becoming president," says the Cass Lake Voice, in whose opinion Mr. McCleary's day in the Second district has passed.

Two Democrats have filed as candidates for nomination for congress. They are Judge Alfred Jacques, here in the Eighth district, and Judge H. L. Buck, in the First. Mr. Jacques has been satisfied to train exclusively with the stand-pat pack and not attempt to run in two directions at once. Judge Buck may be expected to find him a much more formidable opponent than Judge Jacques will find in Mr. Miller. Then, too, Mr. Jacques' exalted station in the realm of the mounted masters will make it imperatively necessary for the stand-patters to exert every influence in his behalf. However, there are many good reasons why Democrats are hopeful of victory in both districts.

In the other districts good, strong men will be put in the field to do their part toward bringing about the de-

sired result—the election of a Democratic house in which Minnesota will be a power.

W. S. Hammond will of course be an unopposed candidate for re-nomination in the Second. With the Republicans getting into their usual groove over the nomination at this stage of the game, the election of Hammond seems to be more nearly certain than ever.

It is not likely that any Democrat will enter the field against Charles R. Davis in the Third district. He is a Republican, with a good record as a consistent and effective insurgent.

Thomas R. Kane, former county attorney of Ramsey county, will make the race against Fred C. Stevens in the Fourth, and St. Paul Democrats say they are confident that he can win this year. He was a candidate against Stevens once before and made a good showing in an off-year for Democrats.

Elmer Holdale seems to be the favorite in the Fifth, where Representative Nye faces a situation that promises more for the Democratic candidate than it does for Mr. Nye in the way of desirable results.

Representative Lindbergh will not be opposed in the Sixth. He is almost an ideal insurgent, and for that reason will have all the opposition he should have to contend with in the candidacy of J. M. McCleary for the Republican nomination. McCleary is doing some very extensive and persistent work in quiet way and may surprise many of Lindbergh's friends at the primaries.

In the Seventh, Victor Lawson, mentioned as a probable candidate, his home is at Willmar, where he publishes a newspaper, the Tribune. Ole Segasen is boomed in the Ninth district.

The Northfield News says the nomination of Walter J. Smith for state treasurer by the Republican convention was due to the controlling influence of party expediency and the expectation that St. Louis county's Republican vote will be increased by reason of that nomination, adding: "That, however, is far from being all that recommends Mr. Smith to public confidence. The people of the state have already seen enough of him. He has made up their minds that there is much in the man himself, and that they are going to like him and share with his townspeople their confidence in his integrity and his executive ability."

Troubles threaten to beset Clarence B. Miller on all sides in his contest for re-nomination and re-election to congress as the representative of the Eighth district.

**Dowling May Try For Congress.** In the popular mind, with his record as a faint-hearted follower of different factional leaders, and the sweep of the Democratic wave in favor of Judge Jacques, it seems that he was sufficiently stocked with troubles for one lone candidate, but, apparently, he is to have more of 'em.

The latest gossip is to the effect that P. E. Dowling, until recently a resident of Duluth, now a resident of Duluth, intends to get into the field against Mr. Miller in the contest for the Republican nomination. It has been known for some time that Mr. Dowling was a receptive member of the Republican party, and that there was no positive indication that he was going to like him and share with his townspeople their confidence in his integrity and his executive ability.

The Mesaba Ore of Hibbing, claims that Mr. Miller will have the assistance of some of the best spell-binders of the country. "There are a number of near-insurgents in this state that must be saved to the stand-patters, even if it takes all of the talent and the command of the Taft-Aldrich-Cannon machine to do it," says the Ore, which takes occasion also to ask: "If Congressman Miller is an insurgent, how does he come to be one of the stand-patters as so well pleased with the congressional action?"

For the information of the Grand Rapids Independent, and after careful reading of the paper's account of the Thursday night last, and while in this section of the district took advantage of his proximity to Grand Rapids to make this city a visit, Mr. Jacques is a very pleasant gentleman to meet, and when the campaign opens up he should make a very good impression on the voters, if he gets out at all.

The editor of the Austin Transcript, who happened to be C. E. Beiden in the pink of condition. He says editor-in-chief "Congressman Smith of Iowa says he would like to slap the face of every editor in the land. He might begin and see how far he could get at the job."

"Progressive sentiment is bound to grow in the next congress," says Senator Clapp in an interview at St. Paul in view of the general expectation that the Democratic party will be in the saddle.

**Senator Clapp Democratic.** This prediction is admittedly safe and sound. Also he says: "Washington is the poorest place in the world to learn anything about the political situation." That explains why a number of Mr. Clapp's distinguished colleagues failed to join with him in his insuring.

The St. Paul man said the tariff commission then is a good one, that he is enthusiastically in favor of that movement. This, he says, is because the tariff commission's beginnings will be like the beginnings of the interstate commerce commission.

"Now the railroad commission has absolute power to fix railroad rates, subject to review as to their reasonableness," said the senator. "The plan we will eventually reach for the tariff is that congress will prescribe a rule for tariff schedules as for railroad rates, and the tariff commission will investigate and make its order according to the facts. So the tariff on any given commodity can be investigated and settled without disturbing all other protective interests. It is assured that every business interest in the country should be upset every time the tariff is touched and there is no more reason for it than to stir up every railroad in the country in settling the rates on a single race."

"The present system brings all the protective interests into politics. No, I have not read Mr. Finch's speech, but if he wants to keep the special interest out of politics, the way to do it is through a tariff commission. The idea is growing, and I believe there were only two men in the senate who favored it, and since then it has gained ground considerably."

F. A. Edmundson, state poller inspector, may be the Democratic candidate for the legislature in the St. Anthony Park and Merriam Park district of St. Paul.

D. M. Neill, defeated candidate for the Republican nomination for lieutenant governor, whose duties as general manager of the Tri-State Telephone company frequently bring him to Duluth, is not out of humor with himself as a result of his experience as a candidate. That is indicated by his readiness to contribute to the gaiety of the nations as a story teller. Recently in St. Paul he told a yarn about Buck Pierce, mayor of Red Wing, his home town. Mayor Pierce is very well known, and stories have been told about him before, so he prob-

ably can stand it. Here is Mr. Neill's story: "When the assessor went to Buck's home not long ago, Buck knew he was coming and prepared for the visit. Among other things, he laid in a quart of very fine Kentucky whisky. When the assessor knocked he was immedi-

ately and cordially admitted. "Sit down," said the mayor of Red Wing, "sit down and get comfortable. Have a drink?" The assessor took a drink and liked it. Presently Buck handed him another. This was followed by a third and a fourth, and so on, until, when it came time to get down to business, the as-

essor was tolerably "lit up," and was enjoying life to the fullest extent. "S-all right, Buck," he was saying, "I'll guess these things of yours." "Finally," he opened up his papers and began to write. When he started to leave, Pierce stopped him. "Let's see what you got," he insisted. "I want to know just what I own."

"He looked over the paper. There was but one entry on it. This was it: "One fast revolving carpet." "All on one quart of whisky, too."

**Goldenites on Last Leg.** Davenport, Iowa, June 30.—The Goldenites left here at 6:15 this morning on the last leg of the tour of 1910, which ends at Chicago this afternoon.

Foley's Kidney Remedy may be given to children with admirable results. It does away with bed wetting, and is also recommended for use after measles and scarlet fever. Sold by all druggists.

## \$15 Ostermoor Mattresses

Now \$9.98

THE STORY spreads and the crowds continue to come and buy these Ostermoor mattresses selling at \$9.98. Some decidedly "long" faces have been seen the past few days in the person of dealers who sell these same mattresses at \$15. We might sell these at that price, too, but it's the Pantan & White plan to give their friends the greatest bargains possible. We daily scour the markets of the country for them and success crowns our efforts quite often.

Let us caution those who have not yet secured mattresses, that they are going fast and will not last long; regular agents charge \$15, but we give you the genuine Ostermoor at.....

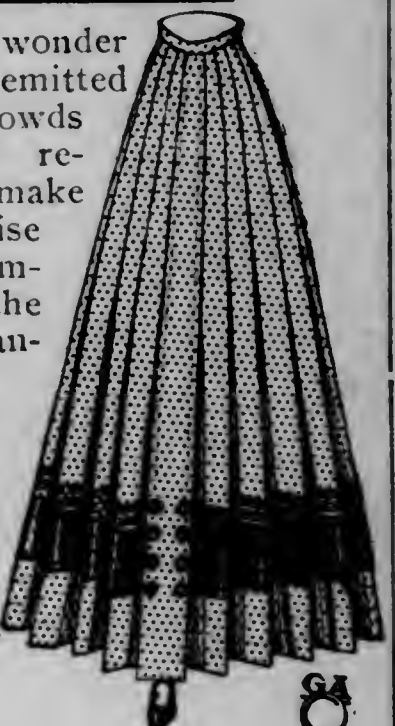

Store Hours: 8 a. m. to 6 p. m. Saturdays 'Till 10 p. m.

**PANTAN & WHITE COMPANY**  
THE BIG GLASS BLOCK STORE  
WHERE QUALITY IS PARAMOUNT  
The Most Satisfactory Mail Order House in the Northwest.

## Crowds of Women Greeted

the \$3.00 Skirt Sale

EXCLAMATIONS of wonder and genuine surprise emitted from the lips of the vast crowds of women who came in response to the offer to make skirts at \$3. Highest praise was showered upon the sample skirts displayed in the

Dress Goods department, showing the quality of the workmanship put into these garments.

One of the foremost tailors in your city will do the work, and were we permitted to mention his name, not a woman in Duluth would hesitate to get a skirt at this figure, instead of paying the customary price of from \$6 to \$10. But this tailoring establishment has a force that must be kept busy, even though they lose money on their work (and they do at these figures).

Select your materials at once from our complete stock, most exclusive patterns of which are offered at and upwards of \$1.00 per yard.

## Elaborate Menu With "Extras" for the Saturday Night Table d'Hote Dinner

A SPECIAL demonstration of our cuisine will be given at the regular Saturday night table d'hote dinner. The choicest delicacies of the season—cooked to an exquisite taste—promptly served in the most restful surroundings, cooled by refreshing lake breezes; will tempt the appetite and delight the palate of those who embrace this occasion.

La Brosse's orchestra will render a most delightful concert from 6 to 8 o'clock, and every arrangement will be made for comfort and entertainment.

### For Gentlemen

The agents for the Lucius Cigars have sent us a quantity of the Baron Cigars, a brand to be given to men on this night.  
This is a regular 50c size, and carried regularly at our cigar department at 30c, 3 for \$1.00. Men who know and enjoy good cigars will enjoy this treat.

Should you dine at the Waldorf, The Blackstone, or some of the other prominent cafes, a dinner of this character would cost from \$2 to \$4. Saturday night you enjoy this elaborate repast in the finest tea rooms west of Chicago, at \$1 per plate. Reservations may be made by telephone beginning Friday morning. Phone early for choice locations—the three rooms will surely be taxed to their utmost capacity.

### ... MENU ...

Local Grape Fruit.  
California Olive Olives.  
Cucumbers.  
Broiled White Fish.  
Choice Roast Chicken with Dressing.  
Choice Roast Spring Lamb, Mint Sauce.  
Lemon Ice.

Cafe Noir.

### For the Ladies

Every lady diner Saturday night will be presented with a sample box of Stacy's "Forklift" chocolate creams. These are hand-made chocolates and confectionery of the very best made.

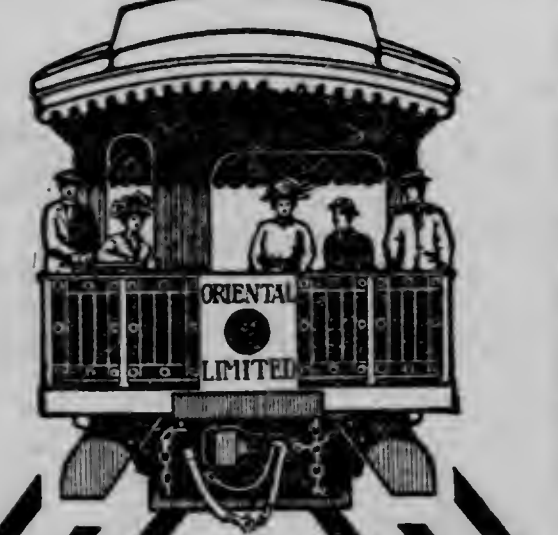

## A Part Payment Furniture Sale: Unequaled Savings

ON OUR furniture floor there are some 20 pieces or lots of furniture that have been sold to various parties, and upon which part payments have been made. These were sold weeks and months ago, but the goods have never left the store. The original purchasers of these goods have either left the city or for some other reason forfeited their part payment. For quick clearance we are going to sell the entire lot, allowing the part payment to apply on the present purchase. The result is the following offerings:

## IN THE NURSERY

## WILL SEEK NEW TRIAL

Attorney for Jackson McPherson Will Argue for Re-Hearing.

Warren D. Whipple, attorney for Jackson McPherson, convicted some months ago before a grand jury in the district court of the murder of his shipmate, Otto Frey, aboard the steamer North Lake on Sept. 22 last, will appear before Judge J. D. Ensign tomorrow morning and make a motion for a new trial.

The grounds on which the new trial will be asked for are:

1. The verdict of guilty of murder in the second degree was not justified by the evidence.

2. Misconduct on the part of the county attorney when in delivering his final argument to the jury, he referred to matters not concerned in the case and calculated to arouse prejudice.

3. The verdict was rendered under influence of passions and prejudices created by the misconduct of the county attorney.

4. Errors made by the judge in charging the jury.

At the trial, some time ago, the jury deliberated in some hours before the verdict of guilty was brought in.

Second degree murder has but one punishment, life imprisonment at the state prison at Stillwater.

McPherson, who is of Scotch descent and said to be of good family, is confident of obtaining a new trial. Local Scotchmen are much interested in his case. They have been extending help to him since the first, believing that the story he tells is true.

## LOOKING FOR COOL RESORT

Traveling many miles to find a cool place, a party of Cheyenne, Wyo., people has come to Duluth from Excelsior Springs, Mo., and now is perfectly willing to go somewhere else. The unprecedented period of hot weather is as much a surprise to travelers as it is to Duluthians, and the Wyoming party is not an exception.

In the party are J. B. McLaughlin, W. A. Burgess and Mrs. J. N. Fary. They are on a health and pleasure trip and are guests at the Hotel.

The party plans to visit the famous resort, if a cool one can be located. They will remain at the Hotel of the Lakes for some time, they expect.

## PRECAUTIONS AGAINST FIRE

Because of the extreme dryness of the water and the danger of fire, all of the elevators and mills in the vicinity of Duluth are keeping the grounds around their buildings wet and are adopting other means of caution against fire.

The big elevators on Rice's Point and those on Conover's Point, and along the bay front are today keeping a man with a hose busy pouring water on the ground and on the sides of the buildings. Everything within a wide radius of the buildings is kept wet for if the buildings were allowed to become dry in the present parching weather, a fire would make short work of the elevators.

It is stated that the same precautions are being taken with the lumber mills in the towns surrounding Duluth. Men are kept pouring water on the buildings and are minimizing the dangers from fire.

## Fastest Mile Ever Traveled By a Human Being.

A mile in 27.33 seconds. This was the record-breaking speed made at Dayton, O., recently with a Benz car. This means traveling at the rate of 131.76 miles an hour.

Speed of the globe could be increased in less than eight days. More interesting than this is the fact that Golden Grain Belt beer is an ideal summer beverage, owing to its invigorating food qualities. It does away with fatigue that comes with the hot weather. Order of your nearest dealer or be supplied by Duluth branch Minneapolis Brewing company.

## THE SOUTH SHORE

Watch for announcement of other excursions.

For particulars apply to A. J. Perrin, Gen'l Agent, 430 West Superior St., Duluth, Minn.

At the One-Price Columbia things are either better or they cost less.

# The Fourth of July IS HERE AGAIN!

Tomorrow and Saturday will as usual be the Banner Days of the Season. If you are looking for high quality and for a choice stock of enormous size from which to make selections, turn Columbia-ward! As America is among the nations of the earth, so stands "The Columbia" among the clothing stores of Duluth—first in all vital respects, the best and the biggest! Neither quality nor quantity are ever allowed to sink below the high Columbia mark. We never sacrifice quality nor our upright modern methods for the sake of pulling trade by make-believe sales or by pulling the cotton over your eyes.

## Yours and the Boy's Suit Is Here!

Whatever the price that you can afford to pay we can show you large varieties of worthy garments. The best Boys' Suits at \$5—the best Men's Suits at \$20. At the higher prices, here alone you find the incomparable wholesale-tailored Stein-Bloch Suits for men and young men and here alone are the famous Sampeck productions in well-tailored Boys' Clothes.

At the lower prices you find here merchandise in qualities superior above those sold in the stores that cater for the trade of the working man with small earning capacity, and in the loudly advertised Bankrupt Fake Sales, that it's a pity to see this poorest of all classes so easily victimized and paying, if not more in the first place, surely much more in the long run than the wealthier people who know enough to go to a good store like The Columbia.

What we say of clothes is true of every other article kept at this store. This is the best place for

## Your Hat, Your Shirt, Your Tie, Your Socks, Your Shoes and Your Underwear

Here's the king of all \$3 Hats (straw or felt) on Superior street—here's the Dollar Shirt that beats them all—here is the recognized Neckwear Shop of Duluth—here is the Columbia \$3.50 Shoe for men and for women that satisfies every inch of the foot and here is every kind of Summer Underwear that has sustained the reputation worked up through national advertising.

## The Busy Boys' Store

On Our Second Floor.  
BOYS' SUITS are here from \$2.50 to \$18. These are suits with short pants, in Russians, Sailors, two-piece double-breasted and Norfolk and many other styles. Greys and blues are this season's favorite colors. Prices: \$2.50, \$3.50, \$4.50, \$5, \$7.50, \$8.50, \$10, \$12.50, \$15 and \$18.

WASH SUITS, in Russians and Sailors, for ages 2 1/2 to 10 years, range in price from 50 cents to \$6.50. They are ideal warm weather suits, cheaper than mothers could make them themselves and they stand the rub and the tub. Prices: 50c, \$1.00, \$1.50, \$2.00, \$2.50, \$3.00, \$3.50, \$4.00, \$4.50, \$5.00, \$6.00 and \$6.50.

BLOUSES AND SHIRTS, either with collars attached or to be worn with separate collars, are here at 5 cents and up to \$1.50. Prices: 50c, 75c, \$1.00 and \$1.50.

HATS AND CAPS—Straw Hats, Felt Hats, Caps of every sort and for every age, from the child of 2 1/2 to the young man of 20 years, at 50 cents and up to \$2.50. Prices: 50c, \$1.00, \$1.50, \$2.00 and \$2.50.

MIDDY BLOUSES for girls and ladies and misses are here again, a new lot having just arrived. These come with either long or short sleeves and cost \$1.00, \$1.50 and \$2.00.

## NORMANNA SOCIETY WILL SING THE SONGS OF "OLD HEIDELBERG"

THE NORMANNA SINGING SOCIETY.

The Normanna Singing society will appear next week with the Gus A. Forbes Stock company when "Old Heidelberg" will be presented with

the opening performance July 4, Monday afternoon. The songs of the students of the old and famous university at Heidelberg will be sung by the members of the local society. This

feature of the performance promises to be of great interest.

"Merely Mary Ann," Israel Zangwill's charming comedy is being played this week.

reason maintains no soda fountain or soft drinks department in its establishment.

The furnishings and appointments

last twelve years. Twenty-five years in the drug business—twenty-two of which were spent in Duluth—have enabled Mr. Abbott to anticipate all the varied requirements of his patrons.

Realizing that the more business his store can do the larger stock he can afford to carry, Mr. Abbott has bent every energy toward building up a strong clientele. Besides the downtown store, Mr. Abbott is the proprietor of a similar establishment on Fourth street for the last eight years and another on Tenth avenue east for the last three years.

Mr. Abbott claims that a large measure of his success is due to the faithful service of employees, eight registered men being employed, six of whom have been with him from three to eight years.

Prescriptions are a hobby with the Abbott stores, and they aim to satisfy both physicians and patrons with the service of experts.

One of the attractive features of the Abbott drug store is the special sale held each week on articles displayed in the front windows. The store offers exceptional values during these sales.

Mr. Abbott aims to carry on a drug store business strictly, and for that

of the new store would be a credit to any city in the country. The interior

work is of Cuban mahogany, buffet style, with plate glass sliding doors, three-fourths-high glass shelves and full-size plate glass mirrors in cases.

Among the features are the handsome art glass screens over the prescription department and the twenty-three art glass globes for the lights. Mr. Abbott took a trip East to investigate

drug store equipment and furnishings in some of the largest cities, and has incorporated many of the best ideas in his new store.

The buying of stock for his three stores enables him to make most advantageous purchases, one instance being that of a large quantity of rubber goods bought at the old prices, although rubber has made a strong advance within the last few months.

Free delivery service is another important feature of the Abbott drug stores.

## "MINISTER" IS BRANDED A FAKE

Reports reached the police station this morning that a colored man pretending to be a Baptist preacher had defrauded several of the most prominent citizens in Duluth of large sums of money on the pretense that he was collecting funds for a negro church to be built here.

The police declare that there is not much doubt but that the so-called minister is a fake of the worst kind. They think that he may be a professional grifter who has been working a similar game throughout the country for more than the last year, reaping a rich harvest.

The last seen of him he was heading for Superior. The authorities across the bay were notified, but up to noon they had been unable to get any trace of him. He is said to be an exception-

ally smooth talker with a pleasing manner which draws the cash from some of the most unwilling.

What Everybody Ought to Know. That Foley Kidney Pills contain just the ingredients necessary to tone, strengthen and regulate the action of the kidneys and bladder. Sold by all druggists.

## CATCHES THIEF TAKING SHOES

John Maki, arrested last night after a strenuous chase by Patrolmen P. Barber and Dickman, was bound over to await the action of the next grand jury in police court this morning on

the charge of larceny from the person.

John Gurin, who fell asleep in an alley near Fifth avenue west while he was looking for a lodging house, caught Maki in the act of stealing his shoes after he had taken \$1.25 from his pocket. The alleged thief had one of Gurin's shoes off and was pulling off the other when Gurin went after Maki with lusty shouts, which attracted the policeman. Seeing the blue-coats coming, Maki took to his heels. He ran about a block and a half and finally ducked into a basement, the door of which was open. The policeman located him with their flash lights and brought him to police headquarters, where the money said to have been stolen was found on him.

## FOR NERVOUS DISORDERS Take Horsford's Acid Phosphate.

Especially recommended for the relief of nervous headache, exhaustion and insomnia.

## STRAWBERRIES FOR PRESERVING

Friday and Saturday we will have in two cars of fancy Washington Strawberries, also one car from Traverse City, Mich., and one car from Bayfield, Wis. These should all be very fine berries, and we are going to sell them cheap. If you cannot get them at the grocery where you trade, try some other store, as the berries are going to be sold at a reasonable price, and we feel that many people in Duluth want them.

Also buy your Pineapples now, quality very fine, prices the lowest of the season.

## GREENWAY STEPS OUT

Will Leave Steel Corporation to Take Position in Arizona.

Becomes Manager of the S. & P. and C. & A. Mining Companies.

John C. Greenway, general superintendent of the Canisteo district of the Oliver Iron Mining company with headquarters at Coleraine, Minn., conferred the report today that he had accepted the general management of the Superior & Pittsburg and the Calumet & Arizona mining companies.

Mr. Greenway will leave early in July to assume his new duties at Bisbee, Ariz. He said he did not know who his successor will be.

W. J. Olcott, president of the Oliver Iron Mining company, is on the way to the city and the name of Mr. Greenway's successor could not be learned.

Mr. Greenway has been in close touch with the corporation since it was likely that General Supt. Greenway of the Canisteo district will be Mr. Greenway's successor.

Mr. Greenway, before his elevation to the general superintendency of the Canisteo district, was superintendent of the Superior & Pittsburg and the Calumet & Arizona mining companies.

John C. Greenway is one of the best known mining men in the Northwest. He graduated from Yale and worked in steel mills before becoming a mining captain at Ishpeming, Mich. He went to Coleraine as general superintendent of the Canisteo mine when that property was first opened up. He developed the immense properties of the Canisteo, Hill, Holman and other mines on the Western Mesaba and brought the new washing plant by which the silica is removed from the iron ore to a successful development.

Mr. Greenway succeeds L. W. Powell, formerly of this city. That Mr. Powell would resign was forecasted in The Herald several months ago.

**FIRE NEAR CLOQUET**  
IS SWEEPING INDIAN RESERVATION LAND

(Continued from page 1.)

not men enough to spare for such cases, and in that particular section there are many settlers.

In another instance an Indian was building a new house in the center of several acres of plowed ground. All the timber had been cut surrounding the plowing, and the only possible dan-

ger was from flying embers, which he could easily have extinguished. Instead, he drove into town with his squaw walking behind, driving two cows. Asked if his house had burned, he said he did not know.

**Settlers Slow to Act.**  
Northeast of town, where the fire is worst, and where is the greatest danger to Cloquet, many of the settlers huddle together and watch the coming, making no effort to back-fire or otherwise help themselves—waiting for men from town. This is not always the case, but it is for the most part.

The settlers cannot possibly stop the fire. Nothing can do that now except rain. But they could save their possessions if they began in time.

One plucky woman, left all alone with two little children, was carrying her baby to save her house and family in the path just as a number of men from the city arrived. She had saved her house and babies.

It looked late yesterday as though a number of men would lose their lives. The timber had been cut surrounding the plowing, and the only possible dan-

ger was from flying embers, which he could easily have extinguished. Instead, he drove into town with his squaw walking behind, driving two cows. Asked if his house had burned, he said he did not know.

**WILD DAY IN WALL STREET**  
(Continued from page 1.)

Union Pacific 3 1/2, Southern Pacific 3 1/2, American Smelting 3 1/2, Reading, St. Paul & Northern Pacific 3 1/2, Rock Island 2 1/2, Baltimore & Ohio 2 1/2, United States Steel and Central Leather 2.

**Demoralization at Noon.**  
Another feverish rebound came and the market continued excited and generally demoralized. The price of the market was demoralized towards noon and there were indications that important market prices were settling down.

The price of Atchison was swept down 6 1/2 points, Southern Pacific 1/2, Union Pacific 1/2, Northern Pacific 1/2, St. Paul & Northern Pacific 1/2, Chesapeake & Ohio 1/2, Steel and Central Leather 1/2.

**Reports that an important conference was being held at the offices of J. P. Morgan & Co. yesterday in relation to the market situation, were denied today at the firm's offices, where it was said that no conference had been or was being held, and that there was no occasion for one. Neither J. P. Morgan & Co., nor P. Morgan & Co., was at the firm's offices today.**

The demand for the shorts increased as the recovery was extended, the rebound in Union Pacific reaching 4, in Southern Pacific 3 1/2, and in the active list generally from 1 to 2 1/2. When the recovery had reached that point, dealings had quieted down without fully having the recovered price level.

**REFUSES TO BLOCK RATES**  
(Continued from page 1.)

comprehensive check being prepared on the entire classification.

**Will Hear Complaints.**  
In an official statement issued today the commission says:

"The principal increases are the carload minimum of horse vehicles from ten thousand to eleven thousand pounds and an advance in the classification of automobiles from first class to 110 per cent of first class and the commission is not satisfied that these items should be suspended. This rule will not, however, delay the hearing of any complaint which has been made or may be made against the reasonableness of these or any other increases affected by the new classification."

**Lumber Rates Reduced.**  
Freight rates on lumber and forest products generally were reduced today by the interstate commerce com-

mission from Omaha, Neb., to various points in Colorado, Kansas and Nebraska.

The reductions range from 1/2 cent to 4 cents a hundred pounds, the average being approximately a cent and a half.

The complaint of existing rates was made by the Commercial club of Omaha against the Chicago & North Western railway and others in the western territory. The desire of the complainant was to have a reduction in the rates that would enable the lumber interests of the Omaha area surrounding territory to extend their competitive business.

**CONGRATULATIONS TO McCUMBER.**  
Washington, June 30.—Senator McCumbers, of Michigan, received a telegram today from Representative Hanna at Fargo, N. D., saying, "No question but that you are a hero. Congratulations."

Mr. McCumbers, who here since April 11 last, which prevented him from entering into the campaign preceding the primaries, which were held yesterday. It is expected that he will be able to go out of doors in a few days.

**COL. BOWEN IS TO BE TRIED IN ARMY COURT.**

Manila, June 30.—Gen. Ramsay D. Potts, commanding the Department of Luzon, today ordered a court-martial to try Col. H. C. Bowen of the Twelfth Infantry, stationed at Fort William McKinley. The charges are not specified and the basis of them is not made public.

**Taft and Roosevelt on Program.**  
Denver, Colo., June 30.—President Taft and former President Roosevelt will speak from the same platform at the annual convention of the National Association of Manufacturers, which is being held at the Trans-Mississippi commercial congress, who announced here that arrangements for holding the congress at San Antonio had been completed.

**NEW WAY TO CLEAN SILVER**  
New Substance, Called "Silverex," Being Introduced, That Is Said to Clean Silverware in Seconds.

The new discovery has attracted the attention of scientists. Prof. C. A. Golding, the Scientist, in a recent article on the subject, says:

"Silver is a fine, white powder, almost instantly effective, but absolutely harmless. It contains no acids, cyanides or poisons."

"Nothing could be more simple to use. Put hot water in a tin pan, then add Silverex, then the silver. The solution thus formed, and the contact of silver with the prompt action of the deposit upon the silver."

"The result is the same whether silver is plated or sterling. Gold or elaborate. Knives, forks, spoons, tea sets, and all other articles of silverware, baskets, etc., are made to look like new in a few seconds' time."

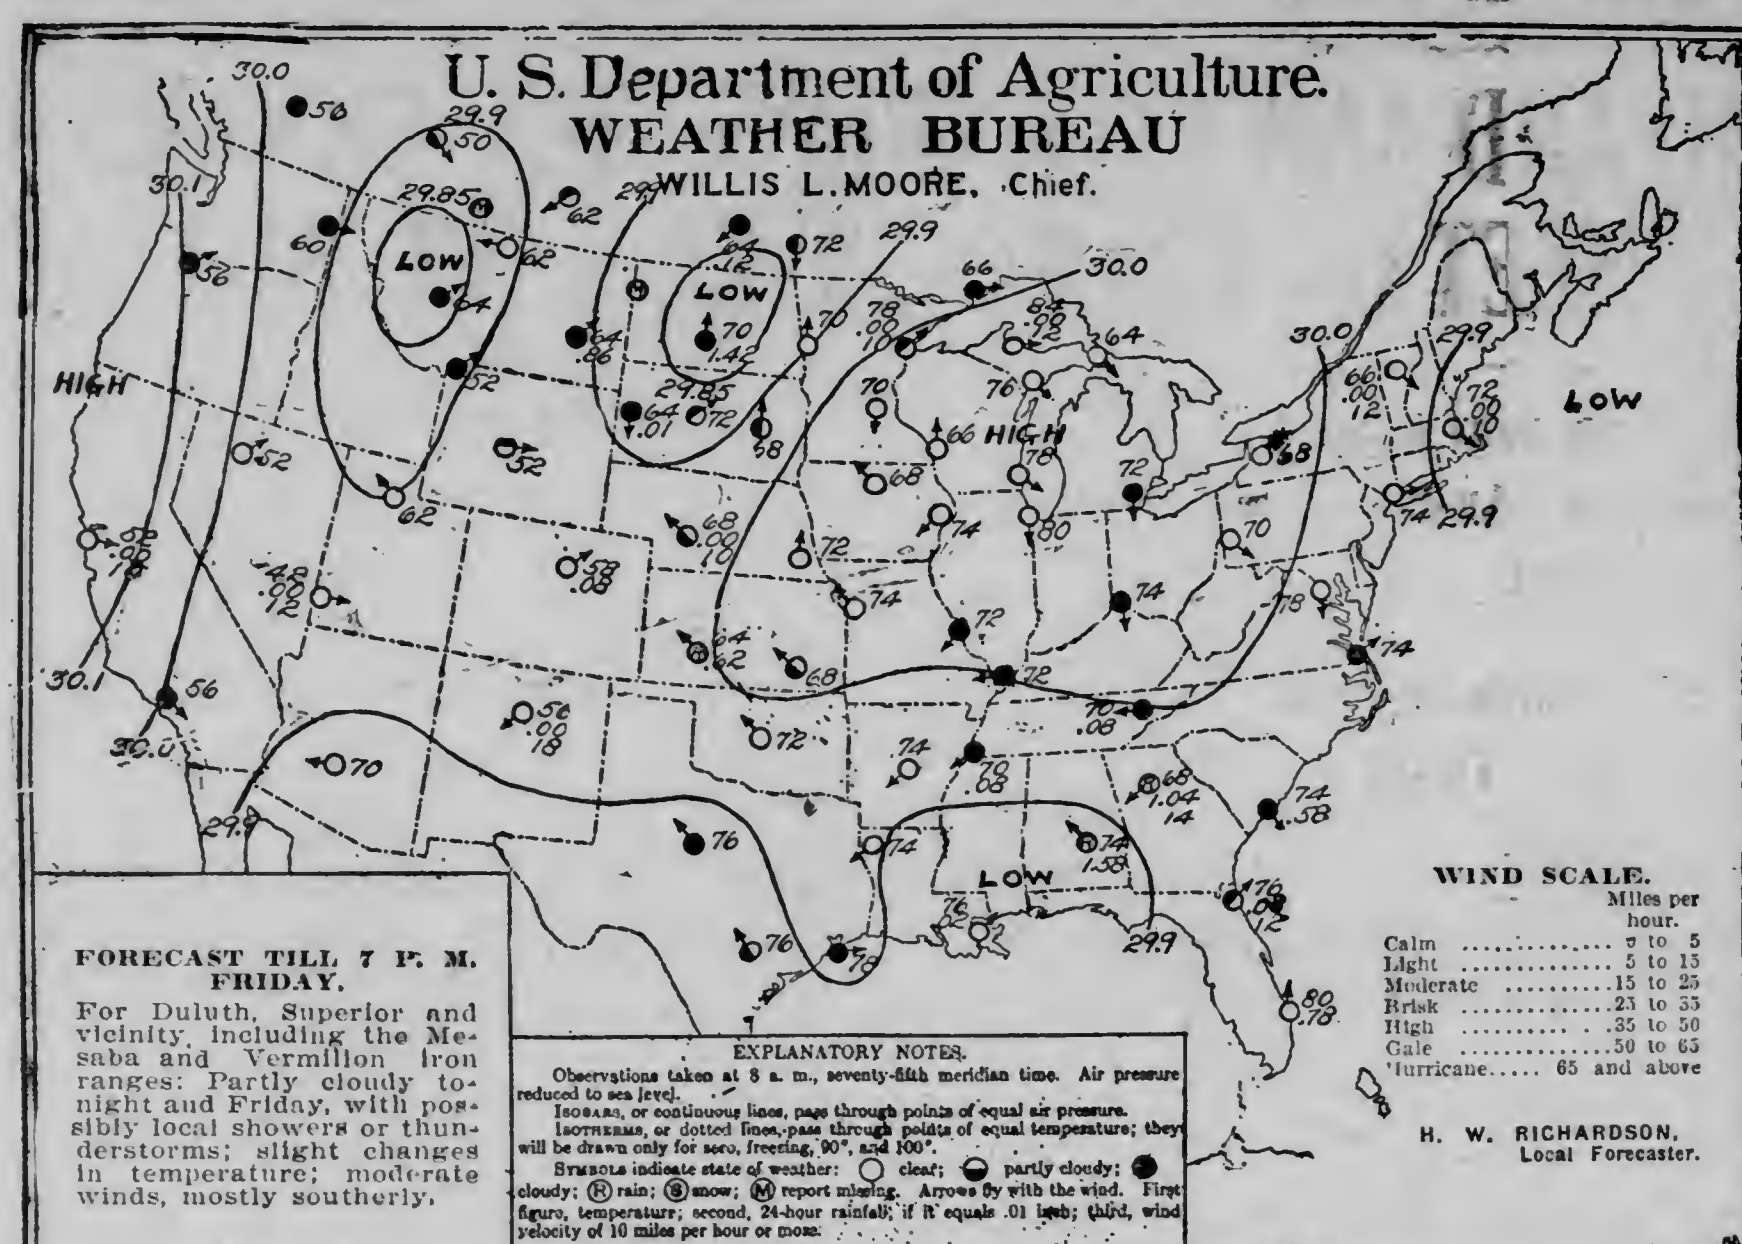

"With the old-fashioned powders, pastes and creams it is impossible to rub out particles. So while the silver is clean in spots, in places it is not. And where any tarnish or stain has been left it will quickly show and soon require cleaning again."

"Silverex cleans silverware more evenly and perfectly than any other preparation. It acts the same over the entire surface, and all marks, stains, and discolorations, remain bright and clean longer than usual."

"Silverex is a fine, white powder, almost instantly effective, but absolutely harmless. It contains no acids, cyanides or poisons."

"Nothing could be more simple to use. Put hot water in a tin pan, then add Silverex, then the silver. The solution thus formed, and the contact of silver with the prompt action of the deposit upon the silver."

## OFFICIAL MAP OF THE WEATHER

### CLOUDY

Even the "is-it-hot-enough-for-you bug" has been subdued. It's even too hot to ask questions. The weather must let up on record-breaking yesterday's sun-baked city. The city steamed and sweated in the sun.

Warm weather also prevailed a year ago today.

The sun rose this morning at 4:16 and it will set at 8:07, giving fifteen hours and fifty-one minutes of sunlight.

Mr. Richardson makes the following comment on weather conditions:

"Hot weather still prevails throughout the northwestern grain districts, the Western Lake region, the Central valley states, and over the eastern slopes of the Rocky mountains. The highest temperatures in these districts Wednesday averaged close to 90 deg. Barometric depressions central over North Dakota and Montana caused local showers over Western Canada."

ger was from flying embers, which he could easily have extinguished. Instead, he drove into town with his squaw walking behind, driving two cows. Asked if his house had burned, he said he did not know.

Red Wing at Rochester.

## Wednesday's Results.

La Crosse, 4; Duluth, 3 (15-inning).  
Superior, 3; Wausau, 1.  
Red Wing, 13; Rochester, 3.

La Crosse, Wis., June 30.—(Special to The Herald.)—Duluth dropped a fifteen-inning game to the Outcasts yesterday, the score being 4 to 3. It was a hard-fought game all the way through, Dauess succeeding in holding the locals to a few hits for the remainder of the game. Errors lost the game for Dauess.

La Crosse scored two runs in the first through errors by Holstrom and Johnson and a double by Lott. A base hit to Zalusky, a sacrifice, a wild pitch and a hit scored one more in the eighth. The winning run was scored in the fifteenth inning, when Lott hit safely and Johnson scored from Holstrom's head. Lott scored, when Helling permitted O'Brien's return of the ball to get away.

All of the visitors' runs were made in the fourth inning. Four hits were bunched in this frame, Anderson and Altematt doing well as, error by Wall contributed to the scoring by the visitors.

Barnegrover, a new man, was on the mound for the Outcasts, and, except for the fourth inning, held the champions safe. The feature of the game was Safford's great peg from deep center, doubling O'Brien off first.

The score.

## UNFINISHED BUSINESS.

The resolution submitted by the Committee on Drains, Sewers and Sanitation approving the award of contract to Geo. R. King for the construction of a sanitary sewer in Sixth alley from the west line of Block 110, West Duluth, Sixth division, to Forty-eighth street, and the award of contract to Alderman Getchell asking for the construction of a retaining wall along Second street from Second to Third streets—Received.

Your committee on Streets, Alleys and Sidewalks, to which was referred the report of the Board of Public Works on petition of Duncan McKinnon, et al., for the construction of a sidewalk twenty feet wide through block 132, Duluth proper, Third division, First avenue west to Second avenue west, having considered the same, recommend the adoption of the following resolution:

Resolved, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

Resolved further, That the city clerk is hereby directed to cause the plat of block 132, Duluth proper, Third division, for the purpose of said sidewalk, to be laid out, and that the city engineer be directed to cause the same to be constructed at the expense of the city.

mated cost of the publication of this resolution.  
Alderman Hogan moved the adoption of the resolution, and it was declared adopted by a unanimous vote of all present, on roll call.  
Passed June 27, 1910.  
Approved June 29, 1910.

By Alderman Getchell:  
Resolved, That the chief of the fire department is hereby requested to report to this council as to the necessity for a fire alarm box at or in the vicinity of Sixty-third avenue west and Tenth street.

Resolved, That the city engineer is hereby requested to report to this council the length necessary to place the proposed sewer in Sixth alley from the west line of Block 110, West Duluth, Sixth division, to Forty-eighth street, and the amount of the estimated cost of the same.

Alderman Hec- moved the adoption of the resolution, and it was declared adopted by a unanimous vote of all present, on roll call.  
Passed June 27, 1910.  
Approved June 29, 1910.

To the Common Council:  
Your Committee on Drains, Sewers and Sanitation, to which was referred communication from the health commissioner, having considered the same, recommend the adoption of the following resolution:
